

Species	Common Name	Link with images for identification and reference
<i>Acer campestre</i>	Hedge maple	http://www.invasive.org/browse/subinfo.cfm?sub=12452
<i>Acer palmatum</i>	Japanese maple	http://www.invasive.org/browse/subinfo.cfm?sub=3001
<i>Acer platanoides, pseudoplatanus</i>	Norway, Sycamore maple	http://www.invasive.org/browse/subinfo.cfm?sub=3002
<i>Acer tataricum var. ginnala</i>	Amur maple	http://www.invasive.org/browse/subinfo.cfm?sub=3965
<i>Ailanthus altissima</i>	Tree of Heaven	http://www.invasive.org/browse/subinfo.cfm?sub=3003
<i>Albizia julibrissin</i>	Mimosa	http://www.invasive.org/browse/subinfo.cfm?sub=3004
<i>Aralia elata</i>	Japanese angelica tree	http://www.invasive.org/browse/subinfo.cfm?sub=11536
<i>Broussonetia papyrifera</i>	Paper mulberry	http://www.invasive.org/browse/subinfo.cfm?sub=5208
<i>Frangula alnus</i>	Glossy buckthorn	http://www.invasive.org/browse/subinfo.cfm?sub=5649
<i>Ilex aquifolium, cornuta,</i>	English, Chinese holly	http://www.invasive.org/browse/subinfo.cfm?sub=6918
<i>Kalopanax septemlobus</i>	Castor aralia	http://www.invasive.org/browse/subinfo.cfm?sub=28071
<i>Koelreuteria paniculata</i>	Golden raintree	http://www.invasive.org/browse/subinfo.cfm?sub=14083
<i>Malus baccata</i>	Siberian crabapple	http://www.invasive.org/browse/subinfo.cfm?sub=14113
<i>Malus floribunda</i>	Japanese crabapple	http://www.invasive.org/browse/subinfo.cfm?sub=14114
<i>Malus spp.: prunifolia, sylvestris, toringo</i>	Plumleaf, European, Japanese crabapple	http://www.invasive.org/browse/subinfo.cfm?sub=11689
<i>Melia azedarach L.</i>	Chinaberry	http://www.invasive.org/browse/subinfo.cfm?sub=3049
<i>Morus alba</i>	White mulberry	http://www.invasive.org/browse/subinfo.cfm?sub=6050
<i>Paulownia tomentosa</i>	Princesstree	http://www.invasive.org/browse/subinfo.cfm?sub=2426
<i>Phellodendron amurense</i>	Amur corktree	http://www.invasive.org/browse/subinfo.cfm?sub=11569
<i>Phellodendron japonicum</i>	Japanese corktree	http://www.invasive.org/browse/subinfo.cfm?sub=11570
<i>Picea abies</i>	Norway spruce	http://www.invasive.org/browse/subinfo.cfm?sub=3386
<i>Poncirus trifoliata (L.) Raf.</i>	Trifoliolate orange	http://www.invasive.org/browse/subinfo.cfm?sub=11571
<i>Populus alba</i>	White poplar	http://www.invasive.org/browse/subinfo.cfm?sub=3066
<i>Prunus avium</i>	Sweet cherry	http://www.invasive.org/browse/subinfo.cfm?sub=11572
<i>Prunus spp.: cerasus, mahaleb, padus, subhirtilla</i>	Sour, Mahaleb, European bird cherry	http://www.invasive.org/browse/subinfo.cfm?sub=11573
<i>Pyrus calleryana</i>	Bradford pear	http://www.invasive.org/browse/subinfo.cfm?sub=10957
<i>Quercus acutissima</i>	Sawtooth oak	http://www.invasive.org/browse/subinfo.cfm?sub=10086
<i>Rhamnus cathartica</i>	Common buckthorn	http://www.invasive.org/browse/subinfo.cfm?sub=3070
<i>Salix babylonica, matsudana</i>	Chinese, Weeping willow	http://www.invasive.org/browse/subinfo.cfm?sub=14066
<i>Sophora (Styphnolobium) japonicum (L.) Schott</i>	Pagoda tree	http://www.invasive.org/browse/subinfo.cfm?sub=23011
<i>Taxus cuspidata Sieb. & Zucc.</i>	Japanese yew	http://www.invasive.org/browse/subinfo.cfm?sub=11598
<i>Ulmus parvifolia</i>	Chinese/Lacebark elm	http://www.invasive.org/browse/subinfo.cfm?sub=6567
<i>Ulmus pumila</i>	Siberian elm	http://www.invasive.org/browse/subinfo.cfm?sub=3479
<i>Zelkova serrata</i>	Japanese zelkova	http://www.invasive.org/browse/subthumb.cfm?sub=18056

Arlington County recommends against planting species from this list. This list is not exclusive, as other species may get introduced.

Invasive plant species degrade the landscape in several ways. In Arlington, invasive plants negatively impact ecosystem health, green infrastructure and canopy coverage. Due to their ability to outcompete native plants, invasive plants have displaced many native species that provide habitat and forage for wildlife. Additionally, invasive plants can disrupt normal forest succession by inhibiting regeneration of native tree species.
