(2-8-81; Ord. No. 04-26, 11-16-04, effective 12-12-04)

§ 46-11. Same--Accountability.

The Board of Trustees shall be accountable to the County Board.

§ 46-12. Same--Composition; Organization and Terms of Office.

A. The Board shall consist of seven (7) trustees as follows: Three (3) trustees appointed by the County Board; one (1) trustee appointed by the County Manager; one (1) trustee who is an active employee and member of the Arlington County Retirement System elected by police officers, firefighters and deputy sheriffs; one (1) trustee who is currently receiving retirement benefits from the Arlington County Retirement System elected by the retired members.; and one (1) trustee who is an active employee and member of the Arlington County Retirement System elected by employees not represented by another elected trustee. The election of the trustees by the employees of the County and retirees shall be conducted under procedural rules approved by the County Manager. Notwithstanding the above, the County Manager may forego an election of trustee or substitute if only one (1) eligible person is nominated by the employees for an office pursuant to procedures adopted by the County Manager. The person nominated shall be deemed elected. If no eligible employee or retiree is nominated, the County Manager shall appoint an eligible employee or retiree to serve as a trustee, as applicable.

B. The term of office of the trustees shall be four (4) years, except that when the Board of Trustees shall be so created and constituted, the trustee to be appointed by the County Manager and the trustee to be elected by police officers, firefighters and deputy sheriffs shall be appointed or elected for an initial two-year term. No eligible person can be nominated for both a trustee and a substitute trustee simultaneously.

E. The successors to the trustees and the substitute trustees shall be selected thirty (30) days before the expiration of the term of office. For trustees or substitute trustees elected or appointed after February 2009, their terms of office will end on January 31. The successors shall take office during the regularly scheduled February Board meeting.

F. Each member of the Board shall be entitled to one (1) vote. Four (4) trustees shall constitute a quorum provided that no decision of the trustees shall be effective unless four (4) trustees have voted in favor of such decision.

G. If it is determined by an affirmative vote of six (6) Board members that a member of the Board or substitute trustee is guilty of malfeasance or misfeasance in office or of being absent from monthly Board meetings more than three (3) times in a calendar year, the Board of Trustees may recommend to the County Board that a trustee be removed from the Board. Such election must be made by December, 1991.

C. All applicants for employment in a uniformed public safety position, a position that has a high degree of physical and/or psychological demands, or other position as determined by the County Manager, or designee, must consent to a pre-employment physical examination by the County physician or some other clinician authorized by the Board of Trustees before such employee may be accepted into membership. Any such employee with a specific disability at the time of his employment shall be advised, in writing, that he waives his right to any claim for accumulated service-connected disability based upon such pre-employment disability or aggravation thereof, upon his entrance into the Retirement System. Any such employee with a pre-employment disability shall be eligible for a service-connected disability allowance only if the Board finds that such employee would have been entitled to a service-connected disability allowance notwithstanding the pre-employment disability. - (2-8-81, Ord. No. 19-11, 11-16-19)

§ 46-30. Year of Service.

(2-8-81; Ord. No. 04-26, 11-16-04, effective 12-12-04)

§ 46-31. Service Credit.

- A. **Membership Service Credit.** Each member shall receive membership service credit for all service rendered while a member of the System after he becomes a member, or after he last became a member in the event of a break in his membership, and for the period he is on service-connected disability retirement. Each member shall receive membership service credit for military leave, provided that the member returns to work in accordance with the Uniformed Services Employment and Reemployment Rights Act (USERRA) and the member's discharge is not under dishonorable conditions. This membership service credit will be applicable to any active duty military absences for reasons other than training and will not exceed a cumulative total of five (5) years as defined by USERRA. Notwithstanding any other provision in this chapter to the contrary, contributions, benefits and creditable service with respect to qualified military service will be provided in accordance with Internal Revenue Code § 414(u), effective October 13, 1996 or any other applicable law.
- B. **Prior Service Credit.** An employee who becomes a member after re-employment and after having withdrawn the accumulated contributions contributed during his prior membership may re-establish his membership service credit for the period of his prior membership as follows:
1. If such employee were a former member of this System, by repayment to the System of the amount of his withdrawn accumulated contributions, with interest at the rate of six percent (6%) per annum from the date of withdrawal, which shall be a lump sum payment, plan-to-plan transfer, payroll contributions for a period not to exceed one (1) year (if offered by Employer) or a combination of these options.
 2. If such employee were a former member of the Arlington County Employees' Supplemental Retirement System (Chapter 21) or the Arlington County School Board Employees' Supplemental Retirement System (Chapter 35), by contributing to this System the applicable employee contribution based upon the employee's compensation during the credit period sought and the contribution rate in effect for this System, with interest at the rate of six percent (6%) per annum from the date of withdrawal, which shall be a lump sum payment.
 3. An official purchasing service pursuant to § 46-27.B shall pay their contributions plus interest at the rate of six percent (6%) per annum for each full calendar year in which the contributions were not assets of the fund. The payment shall be made in a lump sum.
- C. **Additional Permissive Service Credit.** While an employee, a member of the System may purchase up to four (4) years of service credit, provided the following requirements are met:
1. The service represents:
 - i. prior active U.S. duty military service of at least 180 consecutive days in the U.S. Army, Navy, Air Force, Marines, Coast Guard or reserve components and the employee was not discharged under dishonorable conditions; or
 - ii. prior local government service; or
 - iii. prior public safety officer service (police officer, deputy sheriff, firefighter or a National Registry or state certified emergency medical technician or higher) with a federal, state, municipal or local governmental employer; however, only public safety officer service as described in Internal Revenue Code Section 415(b)(2)(H)(ii)(I) will be excluded from Internal Revenue Code maximum benefit limitations.
 2. No service credit may be purchased under this section if it is included in the calculation of any retirement allowance received or to be received by the member from this or another retirement system. Service in the U.S. Armed Forces Reserves or the National Guard is exempt from this requirement.
 3. The amount of membership service credit purchased does not exceed the lesser of four (4) years or the length of employee's other prior service.

4. The cost of the other prior service purchase is actuarially cost neutral to the System.
 5. The purchase is completed through either a one-time lump sum payment, plan-to-plan transfer, payroll contributions (if offered by Employer) or a combination of these options.
 6. The County Manager, or designee, has the authority to adopt rules and procedures governing the administration of service credit purchases.
- D. At the time of retirement, an employee hired prior to January 1, 2001, may elect to convert an unlimited amount of unused sick leave to service credit, in lieu of any cash payment provided by the County for accumulated sick leave. This conversion is not available when retirement is deferred pursuant to § 46-44.B. Employees hired after January 1, 2001, may only receive service credit for accumulated sick leave.
- E. No School Board employee, except for employees who elected to remain in the System beyond September 1, 2001, shall accrue membership service beyond September 1, 2001.

ARTICLE VI.

CONTRIBUTIONS

§ 46-32. Member Contributions.

A. Each member, who is not a member of the Virginia Retirement System (V.R.S.) and who is not a police officer, firefighter or deputy sheriff shall contribute for each pay period for which he receives compensation four percent (4%) of: (1) his creditable compensation, (2) any accrued and unused vacation, and (3) any earned and unused compensatory time paid at employment termination until such time as the County Board, pursuant to § 46-19, shall revise the rate of member contributions. Each member who is a police officer, firefighter or deputy sheriff, during years of service until the pay period ending January 3, 2009 shall contribute for each pay period for which he receives compensation five percent (5%) of his creditable compensation, as then defined, and for all years of service commencing with the first pay period beginning January 4, 2009 shall contribute for each pay period for which he receives compensation, seven and a half percent (7.5%) of his creditable compensation, any accrued and unused vacation, and any earned and unused compensatory time paid at employment termination until such time as the County Board, pursuant to § 46-19, shall revise the rate of member contributions subsequent to December 23, 1984, employers who have elected to participate in the employer pick-up program shall pick-up all employee contributions required herein.

All employee contributions will cease upon attainment of thirty (30) years of creditable service.

B. There shall be deducted or picked-up from the salary of each member for each payroll period, the contribution payable to each member as provided in this section. Such deduction or pick-up shall be transmitted to the System each month.

C. The County Manager shall certify to the proper authority or officer responsible for preparing the payroll and he shall cause to be deducted or picked-up from the compensation of each member the proper contribution rate as determined by the County Board for each such member. All changes in creditable compensation shall be effective as of the date such change is made by the employer.

D. The County Board may change the rate of the contributions of a member or classification of members provided in § 46-32.A, as a part of a compensation plan.

E. Each employer shall be responsible for the employer contribution to V.R.S. and each employee who is a member of the V.R.S. shall be responsible for the employee contribution to the V.R.S.

F. The contributions required to be made under the provisions of § 46-32.A and § 46-32.B with

respect to services rendered by an active member on or after December 23, 1984, shall be picked-up by the employer, in lieu of contributions by the employee, provided the employer has elected to participate in the employer pick-up program. The employee shall not have the option of choosing to receive pick-up contributions amounts directly instead of having them paid by the employer to the System. Pick-up contributions shall be treated as the employer's contribution in determining tax treatment under the United States Internal Revenue Code for federal tax purposes, pursuant to 26 U.S.C. § 414(h)(2). For all other purposes, under this chapter and otherwise, such pick-up contributions shall be treated in the same manner and to the same extent as contributions made by a member prior to December 23, 1984.

G. A member, who is a member of the V.R.S., may purchase membership credit for leave, provided he is receiving credit for such leave under the V.R.S., by contributing the employer's normal cost in effect as of the date of purchase multiplied by the employee's current compensation multiplied by the years of service credit sought. (2-8-81; 8-22-81; Ord. No. 84-38, 12-23-84; Ord. No. 89-15, 7-1-89; Ord. No. 00-34, 11-1-00; Ord. No. 03-14, 6-14-03; Ord. No. 04-26, 11-16-04, effective 12-12-04; Ord. No. 08-17, 9-13-08, effective 1-4-09; Ord. No. 12-13, 9-15-12)

§ 46-33. Employer Contributions.

A. Each employer shall contribute a percentage of the members' creditable compensation, any accrued and unused vacation, and any earned and unused compensatory time paid at employment termination as determined by the County Board. In the event that an employer does not pay the established contribution, the Board shall take appropriate action to secure payment.

B. The annual employer contribution rate for this chapter, Chapter 21, and Chapter 35 shall be fixed as equal to the employer normal cost plus an expense rate plus any amortization charges from subsection C below, if the System's funding ratio (actuarial value of assets divided by actuarial accrued liability) remains within a corridor, the lower measurement of which is one hundred percent (100%) and the upper measurement of which is one hundred and twenty percent (120%). The employer normal cost and actuarial accrued liability are to be measured using the method recommended by an actuary and approved by the Retirement Board.

In the fiscal year commencing June 30, 1986, the employer shall transmit to the System on January 15, 1987, a sum equal to one-half (1/2) the actual annual contribution for the first six (6) months of the fiscal year. On May 15, 1987, the employer shall transmit to the system a sum equal to one-quarter (1/4) the actual annual contribution for the third quarter of the fiscal year. On August 15, 1987, the employer shall transmit to the System a sum equal to one-quarter (1/4) the actual annual contribution for the fourth quarter of the fiscal year commencing June 30, 1986. The August 15 transmittal shall be adjusted to reflect the full annual contribution due based on actual payroll and any actuarial estimate of loss of income by reason of timing of payments.

On October 15 of each subsequent fiscal year, the employer shall transmit to the System a sum equal to one-quarter (1/4) the actual annual contribution for the first quarter of the fiscal year. On January 15 of each fiscal year, the employer shall transmit to the System a sum equal to one-quarter (1/4) the actual annual contribution for the second quarter of the fiscal year. On May 15 of each fiscal year, the employer shall transmit to the System a sum equal to one-quarter (1/4) the actual annual contribution for the third quarter of the fiscal year. On August 15 of the succeeding fiscal year, the employer shall transmit to the System a sum equal to one-quarter (1/4) the actual annual contribution for the fourth quarter of the previous fiscal year. The August 15 transmittal shall be adjusted to reflect the full annual contribution due based on actual payroll.

C. In the event of an ordinance change that affects benefits, the employer contribution rate shall be changed effective with the July 1 coincident with or next following the date of adoption of the ordinance change. The employer normal cost component shall be adjusted to the level required by the ordinance change. If the ordinance change increases benefits, the employer contribution rate shall also be increased effective with the July 1 coincident with or next following the date of adoption of the ordinance change by a twenty (20) year amortization of any increase in actuarial liability as a result of the change; however, should the funding ratio exceed one hundred and twenty percent (120%) at any point after the effective date of the benefit change, this amortization payment will cease.

D. To the extent that the System's funding ratio exceeds one hundred and twenty percent (120%), a credit shall be established equal to the amount of assets in excess of one hundred and twenty (120%) of the actuarial accrued liability. The employer contribution shall be reduced by a fifteen (15) year amortization of this credit, to be paid until the funding ratio re-enters the corridor at which time it will cease.

E. To the extent that the System's funding ratio is lower than one hundred percent (100%), a charge shall be established equal to the difference (not less than zero (0)) between the actuarial accrued liability less the assets less the present value of any remaining amortization from subsection C above. The employer contribution shall be increased by a fifteen (15) year amortization of this charge, to be paid until the funding ratio re-enters the corridor at which time it will cease.

F. The contribution rate shall not increase nor decrease by more than two percent (2%) of payroll, plus any change due to subsection C above, over the previous years' contribution rate.

G. The employer contribution rate will not be less than three and one-half percent (3.5%) of payroll.

H. The County, being entitled to reimbursement from the Commonwealth of Virginia of a portion of the employer contributions on account of the County Treasurer, Attorney for the Commonwealth, Commissioner of the Revenue, Clerk of the Court, Sheriff and their employees, as provided under § 51.1-806 of the Code of Virginia, shall submit to the Virginia Retirement System Board, biennially, actuarial information as required, which shall provide the basis for such reimbursement.

I. Any forfeiture arising from severance of employment or death shall be used to reduce the employer contribution under the plan.

J. Notwithstanding anything in this chapter to the contrary, the amount of annual additions of a member for any limitation year for purposes of Internal Revenue Code § 415 shall not exceed the maximum permissible amount determined pursuant to the provisions of such section applicable to governmental plans, as defined for purposes of such section. For purposes of this section, annual additions shall have the meaning set forth in Internal Revenue Code § 415(c). If the member's annual additions for any limitation year (as defined for purposes of such section) would exceed such maximum permissible amount, the amount contributed or allocated shall be reduced so that the annual additions for such limitation year will equal such maximum permissible amount and in accordance with Revenue Procedure 2008-50 and subsequent updates. All defined contribution plans maintained by Arlington County will be combined for purposes of Internal Revenue Code § 415(c).

D. Notwithstanding anything in this chapter to the contrary, the amount of annual additions of a member for any limitation year for purposes of Internal Revenue Code § 415 shall not exceed the maximum permissible amount determined pursuant to the provisions of such section applicable to governmental plans, as defined for purposes of such section. If the member's annual additions for any limitation year (as defined for purposes of such section) would exceed such maximum permissible amount, the amount contributed or allocated shall be reduced so that the annual additions for such limitation year will equal such maximum permissible amount.

A member retiring under provisions of § 46-39 or § 46-41 whose contributions have been transferred to the retirement allowance account and who subsequently becomes an employee of the County shall contribute to his Members' Contribution Account on the same basis as any other member as provided in § 46-47.A.

This account shall pay retirement allowances, other benefits payable after a member's retirement, and necessary expenses of the System.

B. The amount of interest allowances provided for in § 46-35.C shall be transferred each year from the Retirement Allowance Account to the Members' Contribution Account.

C. Notwithstanding anything in this chapter to the contrary, the amount of annual additions of a member for any limitation year for purposes of Internal Revenue Code § 415 shall not exceed the maximum permissible amount determined pursuant to the provisions of such section applicable to governmental plans, as defined for purposes of such section. If the member's annual additions for any limitation year (as defined for purpose of such section) would exceed such maximum permissible amount, the amount contributed or allocated shall be reduced so that the annual additions for such limitation year will equal such maximum permissible amount.

Upon service retirement or upon entering the DROP on or after January 4, 2009, a member who is a Public Safety Member, shall irrevocably elect to receive an annual retirement allowance payable monthly to him for life which shall be equal to either:

- (1) two and one-half percent (2.5%) of the member's average final compensation using creditable compensation as defined effective January 4, 2009 multiplied by the number of years of his creditable service up to the pay period ending January 3, 2009, plus two and seven-tenths percent (2.7%) of the member's average final compensation and using creditable compensation as defined effective January 4, 2009 multiplied by the number of years of his creditable service commencing after January 3, 2009; or
- (2) their retirement allowance calculated as if they had ceased employment on January 3, 2009 for all years of creditable service up to January 3, 2009 plus a retirement allowance as calculated for years of creditable service attained on or after January 4, 2009 using two and seven-tenths percent (2.7%) of final average compensation and using creditable compensation as defined as of January 4, 2009. The retirement allowance calculated as if they had ceased employment on January 3, 2009 shall include the annual bridge allowance defined in the paragraph below, while eligible to receive the bridge allowance.

Upon service retirement after January 3, 2009, Public Safety Members who are vested as of April 19, 2008 may irrevocably elect to receive an annual retirement allowance payable monthly to him for life which shall be calculated by one of the above two formulas or equal to one and one-half percent (1.5%) of the member's average final compensation as calculated on January 3, 2009 multiplied by the number of years of his creditable service from the first through the tenth year of service plus one and seven-tenths percent (1.7%) of the member's average final compensation as calculated on January 3, 2009 multiplied by the number of years of his creditable service from the eleventh through the twentieth year of service plus two percent (2%) of the member's average final compensation as calculated on January 3, 2009 multiplied by the number of years of his creditable service from the twenty-first through the thirtieth year of service. If utilizing the latter monthly allowance calculation, the bridge benefit described below will be the difference in annual retirement allowance between that above formula and two percent (2%) of the member's average final compensation as of January 3, 2009 multiplied by the total number of years of service, not to exceed thirty (30) years.

Upon service retirement, a member who is a Public Safety Member shall receive an annual bridge allowance, payable monthly to him until his Social Security normal retirement age as defined as of January 1, 2001 or at the early Social Security reduced benefit age if the member elects to receive Social Security at an early age. The bridge amount will be the difference between the allowance as calculated using the retirement allowance calculation in effect prior to January 4, 2009 and an allowance which shall be equal to two percent (2%) of the member's average final compensation using creditable compensation as defined prior to January 4, 2009 multiplied by the number of years of his creditable service prior to January 4, 2009, not to exceed thirty (30) years. On or

before May 1 of any year which follows the year a retiree receiving a bridge benefit attains the age of sixty-two (62), the retiree shall report any Social Security benefits received in such detail, including any and all income tax returns as may be required by the County Manager.

Upon service retirement on or after January 1, 2010, a member who has been both a General Member and a Public Safety Member of the System during their creditable service, shall have a retirement allowance payable monthly to him for life which shall be equal to the sum of the retirement allowance as calculated for Public Safety Members using their years of creditable service as a Public Safety Member plus the retirement allowance as calculated for General Members using their years of creditable service as a General Member.

The maximum amount of creditable service a member can accrue for use in calculating their retirement allowance is thirty (30) years.

B. Upon service retirement of a member prior to his normal retirement age as provided in § 46-37.B, the member shall receive an annual retirement allowance, payable monthly to him for life, which shall be equal to the amount calculated under § 46-38.A and shall be payable, at the option of the member after completing forms to notify the County of his election: (i) commencing on his early retirement date or the first of any subsequent month prior to his normal retirement age but reduced by one-half of one percent (0.5%) for each full month by which the receipt of his monthly allowance precedes the earlier of (a) his normal retirement date, or (b) the first date on which his number of years of service and his attained age would have equaled the minimum age and completed years of service requirement provided in § 46-37.A had he been continuously in service from his date of retirement until such first date; or (ii) commencing at his normal retirement date without such reduction.

C. The retirement allowance for service retirement under the provisions of § 46-38 shall be reduced by any compensation awarded to the member or retiree under the Virginia Workers' Compensation Act ("the Act"), whether such award is paid to the member or retiree in a lump sum or otherwise. Such reduction shall be made only for compensation awarded to cover any period of time for which the member or retiree is or will be receiving benefits under § 46-38. No such reduction shall be made for compensation awarded for permanent partial or permanent total loss or disfigurement, where payments are made from the schedule of payments provided for such under the Act. For purposes of this section, compensation awarded does not include reimbursement for medical expenses.

D. Any member not entering the DROP and electing a normal, early or a deferred benefit may, at the time the member chooses to begin receiving retirement benefits, elect to receive a lump sum payment equal to the lesser of ten percent (10%) of the actuarial value equivalent to that of the annual retirement allowance, including expected post-retirement supplements which may be payable pursuant to § 46-49, to which he could otherwise be entitled, as determined by the actuary, of the benefits to be paid over the member's lifetime or twenty thousand dollars (\$20,000.00). If the then current actuarial value of the benefits is less than five thousand dollars (\$5,000.00), the entire benefit may be selected as a lump sum. Should the member elect such a lump sum payment, the monthly benefit due the retiree will be reduced by an amount calculated to be equal to the actuarial equivalent of the lump sum payment. The lump sum distribution will be issued at the time of the first benefit payment.

Nothing herein shall be construed to require any person to pay back into the System any money received before the effective date of this section. No person who has begun to receive an allowance under § 46-38 before June 23, 1990, shall be subject to this reduction.

E. Nothing in the Code amendments effective January 4, 2009 will apply to or affect retirement allowance calculations pursuant to § 21-59 and § 35-43 for persons ceasing employment prior to April 19, 2008 nor shall such Code amendments affect any person receiving a retirement allowance before April 19, 2008. § 46-39. Ordinary Disability Retirement.

A. Any member in service or on authorized leave without pay who has two (2) or more years of service and qualifies for Social Security disability retirement may, at any time before his normal retirement date, retire on account of disability as herein defined upon written application to the County Manager, made by the member or his appointing authority, setting forth the date the retirement is to become effective. Such effective date shall be after the last day of service, and provided that the medical advisor, after a medical examination of such member, has certified that (i) the member has suffered a disability, (ii) the disability has so severely disabled the member that he is mentally or physically incapacitated from performing any substantial, gainful employment, and (iii) such disability is likely to be permanent and such member should be retired. Every member granted an ordinary disability retirement shall, as a condition of receiving any benefits pursuant to § 46-40, be required to apply for and receive Social Security disability benefits.

B. *Temporary ordinary disability.* If, after receiving the member's application for ordinary disability retirement, the County Manager determines that all the requirements for ordinary disability retirement are met except that it has not been determined whether the member qualifies for Social Security disability benefits, the County Manager shall grant to the member a temporary ordinary disability retirement for either a period of time not to exceed six (6) months or until the member receives a determination from the Social Security Administration, whichever, event occurs sooner. If after this six (6) month period, the County Manager finds that the failure to receive a determination from the Social Security Administration was not in any way the fault of the member, the County Manager shall extend such member's temporary ordinary disability retirement. The case of each member retired pursuant to this subsection B shall then be reviewed by the County Manager at such time as is determined by the County Manager.

§ 46-39.1. Application of State Law.

The rules and regulations required by Chapter 272 of the 1975 Acts of Assembly and the applicable sections of the Code of Virginia relating to respiratory disease, hypertension or heart disease of firefighters and the hypertension or heart disease of police officers and deputy sheriffs are incorporated herein by reference; provided, however, such incorporation by reference shall continue only so long as the enabling legislation requires such rules and regulations.

§ 46-40. Ordinary Disability Allowance.

Upon retirement as provided in § 46-39, a member shall receive an annual retirement allowance equal to the amount calculated in the appropriate sections of § 46-38.A and D with no reduction for early retirement.

(2-8-81; Ord. No. 00-34, 11-1-00)

§ 46-41. Service-Connected Disability Retirement.

A. *Permanent disability.* Any member in service or on authorized leave without pay may retire on account of service-connected disability that is not due to the employee's willful misconduct if he is permanently disabled for duty, upon written application to the County Manager made by the member or his appointing authority, setting forth the date the retirement is to become effective. Such effective date shall be after the last day of service.

In the case of a member who is a member of the V.R.S., the County Manager shall accept the determination of the Medical Examining Board of the V.R.S. In all other cases, no allowance for retirement may be awarded until after the medical advisor has examined the applicant and has certified that (i) the member has suffered a permanent disability resulting from an injury or occupational disease; (ii) the disability has rendered the member mentally or physically incapacitated for the further performance of the significant duties of the classification which he held at the time of his disability; and (iii) such disability is the natural and proximate result of an accident or injury which

occurred while in the actual performance of duty at some definite time or place, or such disability was the natural and proximate result of an occupational disease that was contracted as a result of exposure occasioned by employment. The medical advisor shall consider all medical information provided by the Worker's Compensation Office of the County and the Worker's Compensation treating physician and will consult the treating physician as necessary. No ordinary disease of life to which the general public is exposed outside of employment shall be the basis for retirement unless such disease is found to be compensable under workers' compensation and the County Manager finds beyond a reasonable doubt that the ordinary disease of life (i) did not result from any cause outside of employment and (ii) either:

1. Followed as an incident of an occupational disease; or
2. Resulted solely, naturally, and unavoidably from an injury which occurred while in the actual performance of the member's occupational duties at some definite time and place.

No allowance shall be awarded unless the County Manager finds that the accident or injury upon which the medical advisor based its medical certification occurred, in fact, while the applicant was in the actual performance of duty at some definite time or place or the County Manager finds that the exposure upon which the medical advisor based its medical certification was occasioned, in fact, by employment.

If the medical advisor's opinion disagrees with that of the worker's compensation treating physician opinion, the County Manager may appoint a substitute medical advisor.

The phrase "permanent disability" shall not be construed to include a medical condition which may be corrected if the member follows a reasonable medical treatment plan or reasonable medical advice.

B. *Temporary disability.* If, after conducting the examination, the medical advisor certifies that the requirements for permanent disability are met, except that it has not been determined if the disability is permanent, or if in the opinion of the physician the disability may be alleviated or eliminated if the applicant follows a reasonable medical treatment plan or reasonable medical advice, the physician shall notify the County Manager in writing of his findings, stating his reasons and recommendations. The County Manager shall direct the member to follow such a plan or advice unless it determines that the risk to the member of the plan or advice is too high or the possibility of success too low, given all the facts and circumstances, and the member shall be temporarily retired.

The case of each member retired pursuant to this subsection B shall be reviewed by the County Manager at such time as is determined by the County Manager, and if no specific time for review is determined, the member's case shall be reviewed by the County Manager within twelve (12) months from the date the temporary retirement was granted. Any person whose disability application is denied or whose temporary disability benefit is terminated, may appeal to the board pursuant to § 46-52.

Any employee with a pre-employment disability shall be eligible for a service-connected disability allowance only if the County Manager finds that such employee would have been entitled to a service-connected disability allowance notwithstanding the pre-employment disability. (2-8-81; Ord. No. 83-6, 2-26-83; Ord. No. 94-14, 5-7-94; Ord. No. 00-34, 11-1-00; Ord. No. 03-14, 6-14-03; Ord. No. 04-26, 11-16-04, effective 12-12-04)

§ 46-42. Service-Connected Disability Allowance.

A. Upon retirement as provided in § 46-41, a member shall receive an annual amount equal to sixty-six and two-thirds percent (66.67%) of the member's average final compensation.

B. Upon attaining normal retirement age, the retiree's service-connected disability allowance shall be equal to sixty percent (60%) of the member's average final compensation, as used in subsection A above, for police officers, firefighters or deputy sheriffs or forty-five percent (45%) of the member's average final compensation for a member who is not a police officer, firefighter or deputy sheriff. Upon receiving Social Security benefits, but no later than age sixty-five (65), this allowance reduces to fifty-two percent (52%) of the member's final average compensation for member's who are police officers, firefighters or deputy sheriffs.

C. In no event shall the service-connected disability allowance of a firefighter be an amount less than sixty-six and two-thirds percent (66.67%) of the member's average final compensation at the time of his retirement.

D. Any retirement allowance received by a member pursuant to this section shall be subject to § 46-46.
(Ord. No. 90-36, 1-1-91; Ord. No. 00-34, 11-1-00; Ord. No. 02-26, 12-7-02; Ord. No. 03-14, 6-14-03; Ord. No. 06-08, 6-10-06, effective 7-1-06)

§ 46-43. Line of Duty Death Benefit.

A. *Definitions.* The following words and terms, when used in this section, shall have the following meanings unless the context clearly indicates otherwise:

“Base salary” means an employee's base rate of pay according to the County Board adopted pay plan, including any market adjustments under the pay plan.

“Beneficiary” means, for purposes of § 46-43, that person or persons designated by the member to receive life insurance proceeds from the life insurance policy provided or made available by the employer.

“Direct and proximate result” means that result which is the natural and probable consequence of the antecedent events.

“Line of duty” means on the job in the service of the member's employers. Line of duty does not mean going to or from work (including between any parking lot or transportation terminal and the employee's work place), going to or from meals or breaks, or time spent while "on call" or on stand-by status unless the employee is involved in a specific work-related duty during such period.

“Personal injury” means any traumatic injury as well as diseases which are caused by or result from such an injury, excluding occupational diseases and diseases of ordinary life. The term personal injury excludes any personal injury caused or contributed to by the intentional misconduct or negligence of the member or beneficiary as well as suicide. The term personal injury also excludes any injury caused or contributed to by the member's consumption of alcohol or illegal drugs.

“Traumatic injury” means a wound or other condition of the body caused by external force, including injuries inflicted by bullets, explosives, smoke inhalation, sharp or blunt instruments or objects, physical blows, chemicals, electricity, climatic conditions, infectious diseases, radiation, and bacteria, but excluding stress and strain. Death from heart attacks, strokes and similar diseases resulting from chronic, congenital or progressive cardiac and/or pulmonary conditions are not compensable unless a traumatic injury was a substantial factor in the death. Heart attacks and stroke shall be presumed to be caused by a traumatic injury where such heart attacks and stroke were substantially caused by arduous and strenuous physical work-related activity.

B. The beneficiary of any member who dies in the line of duty shall receive a payment of two (2) times the member's base salary at the time of death, up to a maximum of one hundred fifty thousand dollars (\$150,000.00). Such payment may be received by the beneficiary only after the payment is approved by the County Manager as set forth below. Following approval by the County Manager, the beneficiary may elect to receive the payment either in one (1) lump sum or in four (4) equal installments; the first installment to be made after approval of the application for payment by the County Manager and the remaining three (3) installments annually thereafter. In the event that there is more than one (1) beneficiary no election by beneficiaries is allowed and payment shall be of the full payment only, divided between or among the beneficiaries in the same manner which the member has designated for the life insurance policy provided by or made available by the employer.

In addition, the member's beneficiary shall receive a benefit equal to the service retirement benefit payable under § 46-38 to the member as if the member had worked thirty (30) years for the County. This benefit is payable to the member's beneficiary until the member would have reached normal retirement age. Upon reaching normal retirement age, the benefit is equal to the benefit that would be paid to the survivor had the member worked until

normal retirement, retired and elected a one hundred percent (100%) joint and survivor benefit, and died immediately.

Additionally, any surviving children, or their legal guardian, shall receive undergraduate tuition assistance equal to in-state tuition, room and board at the University of Virginia until the child reaches age twenty-three (23), plus thirty-three percent (33%). This benefit is payable in an exact amount as determined by the County Manager on a semester by semester basis by submitting the appropriate documentation as determined by the County Manager.

The beneficiary(ies) may apply for payment within one hundred eighty (180) days of the member's death by making application to the County Manager. The County Manager may adopt procedures for making and evaluating applications for this benefit. The County Manager shall approve payment under this section only after finding that the member has died as the direct and proximate result of a personal injury sustained in the line of duty.

Before approving any application, the County Manager must receive a written certification from the medical advisor that the member has died as the direct and proximate result of a personal injury identified by the medical advisor and the County's legal advisor certifies that all the requirements of this section have been met.

The one hundred fifty thousand dollar (\$150,000.00) maximum established under this section shall be increased by the same amount as the annual cost of living adjustment made by the Arlington County Board for the Arlington County Employees' Pay Plan, beginning with the adjustment made effective July 1, 2004.*

The lump sum benefit payable under this section shall be reduced by any amount awarded for an accidental death occurring in the line of duty by the V.R.S., whether by an insurance policy or otherwise.

Notwithstanding any of the foregoing, where the County Manager finds that an employee's death, as the direct and proximate result of a personal injury, was intentionally caused by a third party because the third party was motivated to cause the employee's death because the employee performed a particular duty within the employee's scope of employment, such death shall be considered to have occurred in the line of duty whether or not it occurred on the job.

*Effective July 1, 2004.

§ 46-44. Benefits upon Withdrawal from Employment or Death.

A. If a member has ceased to be an employee, otherwise than by death or by retirement under the provisions of this chapter prior to the completion of five (5) years of service, or if he has completed five (5) or more years of service and has not made the election provided in subsection B, he shall be paid, after demand, as soon as practicable, the total amount of his contribution account, notwithstanding amounts in excess of \$1,000.00 shall not be distributed without the employee's written consent.

B. If a member has ceased to be an employee, other than by death or by retirement, after completion of five (5) or more years of service and has not elected in writing as prescribed by the County Manager to withdraw the total amount of his contribution account, he will be eligible to receive a deferred vested retirement allowance commencing on his normal retirement date. The allowance will be the amount determined as provided in § 46-38 as of the date of his withdrawal from employment. For persons ceasing employment between April 19, 2008 and January 2, 2009, the allowance shall be calculated as provided in § 46-38.1. The allowances provided for under this § 46-44.B shall be payable for life commencing on the first day of the month coincident with or next following the later of (i) the date on which such member attains his normal retirement date, or (ii) the date on which the County Manager receives written application from such former member. This written application should be filed with the County Manager not earlier than sixty (60) days prior to the former member's normal retirement date. If a member who has elected to remain a member pursuant to this subsection thereafter:

1. Elects to withdraw his accumulated contributions, he shall be paid the amount of his accumulated contributions.

2. Dies prior to retirement, his beneficiary shall be paid the amount of his accumulated contributions to the date of the member's death.
3. Is reemployed by any employer subject to this chapter and becomes a member of the System, he shall have reinstated his service and compensation records in effect when his service was broken.

C. Should any member who has completed two (2) or more years of creditable service die while in service, a retirement allowance shall be payable to his designated beneficiary provided such beneficiary is his spouse so long as unmarried, dependent parents or children under the age of eighteen (18). The retirement allowance shall be fifty percent (50%) of the amount determined as provided in § 46-38.A based upon the member's number of years of creditable service and average final compensation taken as of the date of his death. For any member who dies while in service between April 19, 2008 and January 3, 2009, their beneficiary's allowance will be calculated as provided in § 46-38.1. In the case of a member who dies in the line of duty and whose beneficiary(ies) receive a line of duty death benefit pursuant to § 46-43, the above service qualifications shall be waived and the retirement allowance shall be one hundred percent (100%) of the amount determined as provided in § 46-38.A as of the date of their death. In no event shall the allowance be less than five percent (5%) of the member's average final compensation. The allowance shall be payable monthly to the dependent parents or unmarried spouse for life or to the children until they reach age eighteen (18). A designated beneficiary who is entitled to a retirement allowance under provisions of this section as a result of the death of a member shall be entitled to waive his rights to such allowance by written notification to the board within ninety (90) days after the death of such member and elect to receive the amounts provided in § 46-44.D. All beneficiaries must agree to such waiver in the event that there is more than one (1) designated beneficiary. Should a designated beneficiary die, the amount of the member's accumulated contributions reduced by the amount of any retirement allowance received by the designated beneficiary pursuant to this section, shall be payable in a lump sum to a person nominated by the designated beneficiary or, in the absence thereof, to the estate of the designated beneficiary.

D. Should a member die whose beneficiary, if any, is not eligible for a retirement allowance pursuant to § 46-44.C, the amount of his accumulated contributions shall be paid in a lump sum to the designated beneficiary, or in the absence of a designated beneficiary, to his estate.

E. Should a person on retirement die, the amount of his accumulated contributions, reduced by the amount of any retirement allowance previously received by him under any of the provisions of this chapter, shall be payable in a lump sum to a designated beneficiary or, in the absence of a designated beneficiary, to his estate.

F. Any designated beneficiary may be changed from time to time by written notice by the member, or person, signed and filed with the County Manager.

G. Should a beneficiary of a disability retirement allowance cease to receive the allowance any time prior to his normal retirement date, he will be eligible to receive a deferred vested retirement allowance commencing on his normal retirement date, as provided in § 46-44.B.

H. Should a former employee who elected to receive a deferred vested retirement allowance pursuant to § 21-48.B or § 35-40.E be reemployed, such former employee shall become a member of the Retirement System to which he was a member when he made his election and the member's service and compensation records in effect at the time service was ended shall be reinstated.

I. This section applies to distributions other than the line of duty death benefit in § 46-43 herein made on or after January 1, 1993.

1. Notwithstanding any provision of this chapter to the contrary that would otherwise limit a distributee's election under this part, a distributee may elect, at the time and in the manner prescribed by the Board, to have any portion of an eligible rollover distribution that is equal to at least five hundred dollars (\$500.00) paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

2. *Definitions.* The following words and terms, when used in this section, shall have the following meanings unless the context clearly indicates otherwise:

“Eligible rollover distribution” means any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one (1) of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten (10) years or more; any distribution to the extent such distribution is required under Internal Revenue Code § 401(a)(9); and the portion of any distribution that is not includible in gross income (determined without regard to the exclusion for net unrealized appreciation with respect to employer securities); and any other distribution(s) that is reasonably expected to total less than two hundred dollars (\$200.00) during a year.

“Eligible retirement plan” Any one of the following that accepts the distributee's eligible rollover distribution: an individual retirement account described in Internal Revenue Code § 408(a), an individual retirement annuity described in Internal Revenue Code § 408(b), an annuity plan described in Internal Revenue Code § 403(a), a qualified plan described in Internal Revenue Code § 401(a), an annuity contract described in Internal Revenue Code § 403(b); an eligible deferred compensation plan described in Internal Revenue Code § 457(b) that is maintained by a state, political subdivision of a state, or an agency or instrumentality of a state; or effective for distributions made after December 31, 2007, a Roth IRA described in Internal Revenue Code § 408A, provided the eligible rollover distribution is considered a “qualified rollover contribution” under Internal Revenue Code § 408A(e). However, in the case of an eligible rollover distribution to the surviving spouse, an eligible retirement plan is an individual retirement account or individual retirement annuity.

“Distributee” includes an employee or former employee. In addition, the employee's or former employee's surviving spouse and the employee's or former employee's spouse who is the alternate payee under a qualified domestic relations order, as defined in Internal Revenue Code § 414(p), are distributees with regard to the interest of the spouse or former spouse. Effective for distributions on or after January 1, 2010, a distributee includes a non-spouse beneficiary of a deceased employee or former employee who may make an eligible rollover distribution in a direct trustee-to-trustee transfer to an "inherited" individual retirement account.

“Direct rollover” means a direct rollover or payment by this chapter to the eligible retirement plan specified by the distributee.

J. Notwithstanding any provision of this Chapter to the contrary, distributions to members and their beneficiaries shall be made in compliance with Internal Revenue Code § 401(a)(9) and regulations issued thereunder, including the incidental death benefit requirement of Internal Revenue Code § 401(a)(9)(G).

K. Notwithstanding anything in this Chapter to the contrary, the amount paid from the Retirement Allowance Account of a member for any limitation year for purposes of Internal Revenue Code § 415 shall not exceed the maximum permissible amount determined pursuant to the provisions of Internal Revenue Code § 415(b) applicable to governmental plans, as defined for purposes of such section. If the member's benefit for any limitation year would exceed such maximum permissible amounts, the benefit shall be reduced for such limitation year so that it will equal such maximum permissible amount.

L. Should a member reach his normal retirement date as defined in § 46-1 while an employee, the rights of the member to accrued benefits under this Chapter shall become nonforfeitable.

M. To the extent required by Section 401(a)(37) of the Internal Revenue Code for purposes of determining a member's entitlement to a death benefit under the Plan, in the event a member ceases to be an Employee in order to perform qualified military service within the meaning of section 414(u) of the Internal Revenue Code and dies on or after January 1, 2007 while performing qualified military service, the member's death

shall be considered to have occurred while the member was an Employee so that his Beneficiaries are entitled to any additional benefits provided under the Plan (other than benefit accruals relating to the period of qualified military service), including without limitation any additional or enhanced vesting or death benefits, had the member resumed employment with the Employer and then terminated employment on account of death.

§ 46-45. Medical Examination of Beneficiary of Disability Retirement Allowance.

The County Manager shall require a permanent disability retiree, prior to his normal retirement date for an ordinary disability retiree and for a service-connected disability retiree, to undergo a medical examination by the medical advisor, or the County Manager's medical appointee in the case of any such retiree residing outside the area serviced by the medical advisor--once each year during the first three (3) years following retirement and once in every three (3) years thereafter for so long as the retiree continues to receive a disability retirement allowance, provided that when it appears in a particular case that the nature of the disability warrants the conclusion that it will continue substantially beyond the time of the next regular examination, the County Manager may waive the requirements that the retiree undergo the next regular examination. The County Manager shall have the authority to order, for stated reasons, a disability retiree to undergo a physical examination at any time. Upon attainment of Normal Retirement Age, medical examination will cease for an ordinary disability retiree and for a service-connected disability retiree. (2-8-81; Ord. No. 00-34, 11-1-00; Ord. No. 04-26, 11-16-04, effective 12-12-04; Ord. No. 12-13, 9-15-12)

§ 46-46. Reduction of Disability Allowance.

A. Whenever the County Manager ascertains that any retiree who has retired on ordinary disability pursuant to § 46-39 is, prior to his normal retirement date, engaged in a gainful occupation or work paying more than the difference between his disability allowance and his average final compensation, the County Manager shall reduce such allowance to an amount which, together with the amount earned by him, equals the amount of his average final compensation.

B. Should the medical advisor report and certify to the County Manager that any retiree who is retired on ordinary disability pursuant to § 46-39 is able to engage in a gainful occupation or work paying more than the difference between his retirement allowance and his average final compensation at retirement, and should the County Manager find that such retiree shall have refused any employment considered by the County Manager suitable to his capacity, he shall not be entitled to any such allowance during the continuance of such refusal, unless in the opinion of the County Manager such refusal was justified.

C. On or before May 1 of any year which follows a year in which ordinary disability benefits were paid, every ordinary disability retiree prior to the retiree's normal retirement date, shall report, in such detail, including any and all income tax returns as may be required by the County Manager, all income from wages or self-employment or both earned in the preceding year.

D. Should the medical advisor report and certify to the County Manager that any retiree who has retired on service-connected disability pursuant to § 46-41 is able to perform the significant duties of the classification held at the time of his disability, the County Manager shall terminate the disability allowance.

E. Except for an allowance received by a retiree pursuant to § 46-42.B, the retirement allowance for service-connected disability determined under the provisions of § 46-42 shall be reduced by:

1. Any compensation awarded to the retiree under the Virginia Workers' Compensation Act (for purposes of this section, compensation awarded does not include reimbursement for medical expenses) whether such award is paid to the member in a lump sum or otherwise, except compensation awarded to cover any period of time for which the member or retiree is not receiving benefits under § 46-42 or compensation awarded for permanent partial or permanent total loss or disfigurement, where payments are made from the schedule of payments provided for such under the Act; and

2. An amount equal to any benefits paid to the member by the Virginia Retirement System.

F. Whenever the County Manager determines that a retiree's disability retirement allowance should be reduced, the amount of reduction shall be prorated over a period of twelve (12) consecutive months. Such reduction shall commence with the allowance payment for July of the year following the year in which the earnings were made.

G. Should a disability retiree fail or refuse to undergo the medical examination required by § 46-45 or refuse to submit the reports required by § 46-46.C or fail to follow the directive of the County Manager made pursuant to § 46-41.B, the retiree's retirement allowance shall be discontinued until withdrawal of such refusal. Should an ordinary disability retiree willfully file a report required by § 46-46.C which contains false information which is substantial, the County Manager shall discontinue the retiree's retirement allowance for one (1) year. Editors Note: The provisions adopted in Ord. No. 93-17, adopted July 27, 1993, are effective retroactive to Jan. 1, 1989.

§ 46-47. Effect on Retirement Allowance of Returning to Work.

A. Should a beneficiary retired pursuant to § 46-37.A or B return to service as an Employee of the School Board, he shall become a member of the retirement system of which he was a member when he retired and shall thereafter contribute to such retirement system. Any service on the basis of which his retirement allowance was computed shall thereafter be counted as creditable service. Upon return to service, such member's retirement allowance shall cease.

Should a beneficiary retired pursuant to §46-37 return to service as an Employee of an Employer other than the School Board, he shall have the option to: (1) become a member of the System and their retirement allowance will cease or (2) participate in the deferred compensation plan provided for in §46-27 and their retirement allowance will continue.

For any person who is receiving a retirement allowance as of April 18, 2009, and then begins new employment with an employer subsequent to January 3, 2009, only service after the date of new employment shall earn the multiplier effective as of January 4, 2009,.

B. Should a beneficiary of a disability retirement allowance return to service at any time prior to his normal retirement date, he shall become a member of the retirement system of which he was a member when retired and contributions, in accordance with § 46-32, shall resume. Any service on the basis of which his disability retirement allowance was computed shall thereafter be counted as creditable service and, in addition, the period of disability retirement shall be counted as creditable service for those on service-connected disability retirement. Upon return to service, such member's disability allowance shall cease.

C. Any excess accumulated contributions of such beneficiary over the retirement allowances received by him shall be transferred from the retirement allowance account to the member's contribution account.

D. If the amount of retirement allowances received by him exceeds his accumulated contributions, the excess allowances over accumulated contributions shall not be transferred to the contribution account. § 46-48. Joint and Survivorship Options.

A member may nominate a beneficiary and may elect, by written application filed with the County Manager any time prior to his normal, early, ordinary or service-connected disability retirement, a joint life and survivorship pension of actuarial value equivalent to that of the annual retirement allowance, including expected post-retirement supplements which may be payable pursuant to § 46-49, to which he could otherwise be entitled, as

determined by the actuary. If a married member elects a beneficiary other than the member's spouse, then this election must have the consent, in a notarized writing, of the member's spouse at the time of application. Such joint life and survivorship benefits shall be on the basis of a lifetime annual retirement allowance to the retired member with either a like amount of pension, two-thirds (2/3) or one-half (1/2) thereof being continued to his beneficiary if said beneficiary survives him. The annual retirement allowance payable monthly shall be determined on a basis of equivalent actuarial values according to the ages, at the member's actual retirement date, of the member and his beneficiary, and shall be payable as long as either lives. The payment of any retirement allowance in an optional form shall be calculated at the member's actual retirement date using the actuarial equivalent of the normal retirement allowance payable under the System using RP-2000 Healthy Annuitant With White Collar Adjustment projected with Scale AA to 2010 for mortality rates and 7.5% interest. The Retirement Board shall have the authority to change the mortality rate and/or interest rate and such rates shall be published in the System's annual valuation and are incorporated in the Code by reference. Notwithstanding the foregoing, a non-spouse beneficiary will be subject to the appropriate benefit adjustments as outlined by regulation 6T of the Internal Revenue Code or any successor applicable regulation.

If so elected, the allowance shall be paid as long as:

A. The retired member lives, with either a like amount of pension, two-thirds (2/3) or one-half (1/2) thereof continued for as long as the beneficiary lives after the death of the retired member. The election shall become payable in accordance with the above provisions if the member dies subsequent to his normal retirement date even though prior to his actual retirement date.

B. The beneficiary lives, but upon the death of the beneficiary prior to the death of the member, the option will be canceled and the amount of the unreduced pension will become payable. No retirement allowance shall be paid to a member unless the member has stated whether or not he elects the joint and survivorship option.

C. Notwithstanding any other provision to the contrary, any retired member who elects the joint and survivorship pension option may, with the consent of the person nominated to receive the option, cancel such option. Such option may also be canceled pursuant to court order in a case in which the person nominated is a party. In the event of either cancellation, the retirement allowance paid to the member in the period after the effective date of the cancellation will be the same as if the member had not elected a joint life and survivorship pension option. § 46-49. Post-Retirement Supplements.

A. In addition to the allowances payable pursuant to this chapter, post-retirement supplements shall be payable in accordance with this section to the recipients of such allowances. Such supplements shall be subject to the same conditions of payment as are the basic allowances being supplemented. Such supplements shall be treated as retirement allowances for the purposes of §§ 46-44.E and 46-47.B.

B. The amounts of the post-retirement supplements provided hereby shall be determined as percentages of the allowances which are provided pursuant to this chapter and the V.R.S. and which are supplemented hereby. Said percentages shall be determined by reference to the increase, if any, in the United States Average Consumer Price Index (C.P.I.) for all items, as published by the Bureau of Labor Statistics of the United States Department of Labor, from its monthly average for the calendar year immediately prior to the year in which the post-retirement supplement is to be paid in accordance with the following:

For the first three percent (3%) increase in CPI	Retirement Allowance Adjustment = the increase in CPI
--	---

For CPI increases between three percent (3%) and twelve percent (12%)	Retirement Allowance Adjustment = three percent (3%) + one half (1/2) of the increase greater than three percent (3%)
For CPI increase greater than twelve percent (12%)	Retirement Allowance Adjustment = seven and one-half percent (7.5%)

C. The amount of any post-retirement supplement shall be adjusted, after its initial determination, only in July of each year beginning with the July next following the anniversary of the actual retirement date of the retiree.

§ 46-50. Vesting on Termination of System; Nonreversion of Funds.

Upon termination of the System or upon complete discontinuance of contributions to the System, the rights of all members to benefits accrued to the date of such termination or discontinuance, to the extent then funded, are nonforfeitable. No portion of the assets of the System shall be used for, or diverted to, purposes other than for the exclusive benefit of the members and their beneficiaries prior to the satisfaction of all liabilities with respect to members and their beneficiaries.
(2-8-81)

§ 46-51. Legal Construction of Chapter 46.

The law of the State of Virginia shall govern the interpretation of Chapter 46 and the legal significance of all transactions of the Board.
(2-8-81)

§ 46-52. Hearing Requirement-Benefit Reductions, Discontinuances and Disability Denial Appeals.

Whenever any provision of this chapter permits or requires the County to reduce or discontinue a retiree's retirement allowance or a member appeals the denial of their application for disability benefits, the Board shall hold a hearing on the appeal. The retiree or applicant, or his representative, shall have the right to be present and heard at such hearing. When hearing an appeal for denied disability benefits, the Board may obtain an independent medical opinion. In the event that the Board's independent medical opinion disagrees with the medical advisor's opinion, the medical opinion of the Board's physician will prevail.
(2-8-81; Ord. No. 04-26, 11-16-04, effective 12-12-04)

§ 46-53. Reduction of Discontinuance of Allowance.

A. If, after conducting the hearing required by § 46-52, the Board determines that a retiree's retirement allowance should have been reduced prior to the date of such hearing, the County Manager shall reduce the retiree's future retirement allowance in an amount equal to the difference between the amount the retiree received and the amount the retiree should have received had the allowance been reduced prior to the date of the hearing until such time as the additional amount paid to the retiree has been repaid.

B. If, after conducting the hearing required by § 46-52, the Board determines that a retiree's retirement allowance should have been discontinued prior to the date of such hearing, the County Manager shall discontinue the retiree's retirement allowance and shall seek repayment from the retiree of an amount equal to the amount that was paid to the retiree from the date his allowance should have been discontinued until the date his allowance was discontinued.

C. The County Manager is authorized to enter into agreements with retirees whose retirement allowance has been reduced or discontinued pursuant to this section whereby the County Manager agrees to installment payments if in the opinion of the County Manager the facts and circumstances of the retiree's case justify such an agreement. In determining whether the facts and circumstances of a retiree's case justify such an agreement, the County Manager shall consider the amount owed, the retiree's age, ability to earn, and assets and prior experience of the member in meeting the requirements of this chapter.

Whenever the County Manager agrees to enter into such an agreement, the County Manager shall collect six percent (6%) interest per annum on the unpaid balance owed by the retiree.

§ 46-54. Reduction of Allowance for Members of the V.R.S.

Members who are also members of the V.R.S. shall have the benefits they or their beneficiaries would otherwise have received from this System reduced by the member's entitlement benefit under the V.R.S. provisions.

§ 46-55. Social Security Option.

A member who has retired from service pursuant to § 46-37 (service retirement) may elect to receive an increased retirement allowance until his Social Security full retirement age as defined as of January 1, 2001 or at the early Social Security reduced benefit age if the member elects to receive Social Security at an early age and a decreased retirement thereafter, so that a member will receive a uniform or nearly uniform retirement allowance when the member's retirement allowance is added to the member's anticipated federal Social Security primary benefits.

§ 46-56. Part-Time Employees.

A. Part-time employees hired on or after June 22, 1986, who have not reached normal retirement age shall be members of the System.

B. Part-time employees hired prior to June 22, 1986, who have not reached normal retirement age may elect to become members of the System. The election to be considered as members shall be delivered to the retirement office by the close of business on Friday, August 29, 1986. Notwithstanding the foregoing, any such part-time employee otherwise eligible for membership may elect to become a member between January 3, 2001 and January 31, 2001. No service credit shall be allowed for any service prior to such employees' election to become a member, whether purchased or not.

C. Part-time employees shall participate in the System on the same basis as other employees except for the following:

1. Credited service shall be determined by dividing the total hours credited to an employee by 2080.
2. Creditable compensation for a given year shall be determined by multiplying the full compensation payable annually to an employee by a fraction, not less than one (1), the numerator of which is 2080 and the denominator of which is the number of hours credited during such year.
3. Upon retirement as provided in § 46-41, a member shall receive an annual amount equal to fifty percent (50%) of the member's average final compensation multiplied by the member's average annual credited service.
4. Membership service credit for military leave shall be prorated based on the member's average annual credited service prior to entry into the military.

C. Except as specifically provided herein, the duration of an eligible member's participation in the DROP may not exceed three (3) years.

D. If a participating DROP member's participation in the DROP is interrupted by military service, there shall be no interruption of membership in the DROP. Such a participating DROP member's retirement allowance shall continue to be paid into the participating member's DROP account while on a military service leave of absence for the balance of the elected DROP term, unless the participant elects to terminate employment with Arlington County.

1. If the member's military service leave of absence is continuous and exceeds 90 calendar days, the duration of the participant's DROP term shall be extended to a duration equal to a maximum of the sum of three (3) years plus the length of the military leave of absence (not to exceed 12 months), unless the participant elects to terminate employment with Arlington County at an earlier date.

E. If a participating DROP member's participation in the DROP is interrupted by an approved medical leave of absence, there shall be no interruption of membership in the DROP. Such a participating DROP member's retirement allowance shall continue to be paid into the participating member's DROP account while on medical leave for the balance of the elected term, unless the participant elects to terminate employment with Arlington County.

1. If the participating DROP member's medical leave of absence exceeds 90 continuous calendar days and the member is approved for the County's Disability Income Program (DIP), the duration of the participant's DROP term shall be extended to a duration equal to the sum of three (3) years plus the length of that approved medical leave (not to exceed 12 months), unless the participant elects to terminate employment with Arlington County at an earlier date.

F. Except as set forth specifically herein, election to participate in the DROP shall be deemed to be service retirement for purposes of this chapter. Upon commencement of participation in the DROP, the electing member's retirement allowance shall be paid into the member's DROP account. Contributions by the County and the participating DROP member into the Retirement System for the participating DROP member shall cease. Contributions into the County's 457 or the School Board's 403(b) plan may continue. Contributions to the 401(a) plans shall continue.

Distributions from the DROP account shall be consistent with applicable tax rules and regulations.

H. The County Manager is authorized to adopt rules and regulations governing the administration of the DROP plan. Any documents executed by the County Manager shall be approved, in form, by the County Attorney prior to execution.

I. If a participating DROP member dies during the three (3) year DROP participation period (or extended period provided for herein), the participating DROP member's designated beneficiary for the DROP account shall receive payment in a manner allowed under the DROP account and subject to applicable rollover rights.

J. If a participating DROP member becomes disabled during the period of participation in the DROP the participating DROP member will receive:

For a service-connected disability, either:

1. The disability retirement benefit as if the member had never participated in the DROP, forfeiting the member's DROP account, or
2. The regular retirement benefit (calculated with years of service up to the member's DROP participation date) along with the member's DROP account balance.

For non-service-connected disability, the regular retirement benefit (calculated with years of service up to the member's DROP participation date) along with the member's DROP account balance.

K. Employees participating in the DROP remain eligible for the benefits provided under § 46-43.

L. An employee who is participating in the DROP automatically terminates active employment when participation in the DROP terminates.

M. Notwithstanding any provision of the County Code to the contrary, Constitutional Officers and their employees may participate in the DROP. Such participation shall be on the same terms and conditions as those applicable to the employees of the County Board, except that if the participating Constitutional Officer or employee fails to terminate employment by the end of the three (3) year DROP period, as required by this section, such person shall forfeit allocations to the DROP account and any earnings thereto. In the event of such forfeiture, the constitutional officer or employee shall be treated as if there was never any participation in the DROP.

N. When exiting the DROP on or after January 4, 2009, whichever is later, the employee shall have a choice of either their allowance as calculated under the formula effective until January 3, 2009 or the formula effective January 4, 2009.
