

New Standards and Regulations for Licensed Adult Day Care Centers,
22VAC40-61
require an ANNUAL 4-hour refresher course for 32-Hour Medication Aides

presents

Assisting with Management of Diabetes

What should you know about diabetes? How can you assist your clients with managing their diabetes? Do you know the signs and symptoms of hypo- and hyperglycemia? In this class you will learn about the differences between type 1 and type 2 diabetes and the differences in their management. Various treatment options, devices, and administration technique of diabetic medications will be explained. The proper method for measuring blood glucose levels using a glucometer will be reviewed. By the end of the class, students will know how to efficiently assess for hypo- and hyperglycemia, confidently administer prescribed medications, and respond to diabetic emergencies.
