**Debrief of October 12 Town Hall Meeting at Central Library**

[Link to Recorded Program](#)

Everyone agreed that it was well attended and a good mix of people and if generated a lot of interest in the community. There were some questions as to why APS wasn't a part of the panel, but the focus of the Town Hall wasn't Schools, but opioid usage in the community. The Opioid Task Force is working to determine the next steps. Kim and Rebecca will meet with them in the upcoming month to present the YRBS Data.

**YRBS Data Presentations and Discussions**

There have been at least 29 YRBS Data Presentations delivered to APS and County Staff, and community members. We have reached over 779 people so far, with many more presentations being scheduled. The complete list is attached.

**County Board Presentation**

Anne Vor der Bruegge presented the YRBS to the County Board on October 24, 2017. The slide show is attached and you can view the presentation, comments and questions on-line.

  - In case you want to see anything in particular:
  - Anne Vor der Bruegge starts the presentation at ~14:00
  - Q&A Starts at ~29:00
  - We start to wrap up around 41:00 and I think we're finally done at 43:00.

**Community Conversation: The World According to our Kids**

November 15, 6:00 – 8:00 at Walter Reed Community Center

The remainder of our meeting was spent discussing the Community Conversation goals and program outline. Some of the highlights include:

**Goals:**

- Disseminate information
- Inform our advocacy plan
- Give parents tools to communicate with their kids
- Promote Parent Chats
- Needs to be a way to empower parents and folks - "can you help us to action"

- Q&A session - prepare to have the school specific data(??)
- Need to be clear - this conversation is not about giving solutions but that you are a part of the solution - what can YOU do when you walk away
- Affinity groups!! Staff does an overview about how to access resources -

#### **End with Next Steps:**

- Opportunity to sign up or join committees - collective impact - galvanize - give a very tangible chance to sign up or vote or put name/email under what they want next - knowing there is no one size fits all
- Have a feedback loop - way to follow up so folks don't feel left hanging - have a structure in place for immediate questions to be collected

#### **Future Events:**

Knowing that we can't do everything we want to in one night, these are some ideas we might use for future planning.

- Have a parent/professional talk about ecological/theoretical model for behavior change
- Have subject matter experts discuss strategies – a resource fair but not just tables - salon style - travel to tables with interdisciplinary teams - the implication of the number means this - NEED SCHOOLS - have the person and a takeaway handout
- Provide training about being an available parent - coaching presentation - or have this in place as a next step BUT don't do here and now

#### **For the data presentation:**

Provide a baseline understanding of the data. Add in the national or state trend lines to see where we vary from the overall curve - show the positive family communication link and why that is important - pull in research findings.

#### **Structure:**

5:30 resource tables

6:15 data presentation

6:30 Q&A

7:00 tables discussions

15 minutes per question (try to have 3 questions) - intern type up notes collected and wordle or live visual

7:45 one final report out per table at the end

8:00 leave with commitment to self AND provide a very clear means to request next steps - next presentation or join a committee

APCYF Members should plan to attend and spread out among the tables to help keep the conversations on track, and focused on solutions rather than blaming.

Please register if you are planning to attend. If you can help with set-up, please let Kim know.
