County Board Chair Message – Christian Dorsey

Mr. Dorsey focused his comments on equity and justice. He plans on writing a policy to articulate equity; determine a way to evaluate our efforts – who benefits and who is burdened; set targets for progress; and include all Arlingtonians. He wants to look at every action of government. He encouraged APCYF to be allies in this work and helping others in the community to understand that “rising tide lifts all boats.”

Message from our School & County Board Liaisons –

- County Board Liaison Katie Cristol shared her appreciation for our work with Child Care Initiative and Destination 2027 as well as our efforts to engage and reach out to the next generation of APCYF members. She will be a partner in recruiting members.
- School Board Liaison Monique O’Grady shared her thoughts on collaboration and the strategic plan. The need for wellbeing for all students and the APS Values.

Community Report – Rebecca Hjelm & Kim Durand

During the meeting, we reviewed and discussed these items:

- The Community Report – DRAFT –
- The Dissemination List – please add to this list!
- Community Report Roll Out Plan and Questions

We set up an additional meeting to continue the discussion:

- Who should the report go to? (Look at the Dissemination List, who is missing?)
- What are some questions we want to ask of community members when we present this information?
- How should we prioritize issues?
- What are some indicators we’d like to have additional information on-line?
