We had an opportunity to discuss the Community Report, its dissemination and follow-up advocacy, as well as look at the website in more detail.

Community Report:

- Kim talked through a draft of the Community Report (CR) Power Point. There were several suggestions to make the presentation more visual (see attached).
- The dissemination list was shared. Suggestions included prioritizing who and how the report would be shared. For example, a presentation to APS Staff might be a higher priority, or have a different focus than that of a Service Club.
- Next Steps: present information to the groups in our dissemination plan, gather data from our community engagement to help form our priority areas, finalize the priorities in August.

APCYF Members interested in working on the CR dissemination and advocacy plan, please respond to this [DOODLE](#). After our initial meeting, we will share with those who are not able to attend, but are still interested in participation.

Website:

- Sally LaBonte (web coordinator) shared some statistics on the number of page views the site gets. The number of visitors definitely goes up during the months that we are sharing data and reports.
- All members are encouraged to [click around our site](#) and provide feedback, suggestions, and edits. We use the County's template, but the content should reflect the work of APCYF.
- The [Committees](#) portion of the site is currently being revised to reflect the suggestions that were made during the meeting, but if you have had a chance to further review any information, please share with Kim. **NOTE: June 26th Meeting** will have time on the agenda for each committee to review their web-based materials and ideally integrated data and action steps most relevant to our community report.
