

# Columbia Pike Transportation Update and Transit Stations Open House

**Come and share your thoughts on:**

- Transit Stations Design
- Future of Transit Service in Arlington

The County has started engineering work for the Columbia Pike transit stations, based on the new design concept unveiled last year.

All members of the Arlington community, including bus riders, are invited to attend and provide input on the importance of various station amenities and the proposed placement of station features.

Participants also will learn about transportation projects underway on the Pike, and planning for future transit service in Arlington.

*Transit Station design concept*

**Tuesday, April 28, 2015**

**5:30 to 7:30 p.m.**

(Presentation will be repeated twice, at 5:30 p.m. and 6:30 p.m.)

**Arlington Mill Community Center**

**Room 527**

**909 S. Dinwiddie St.  
Arlington, VA 22204**
