Monthly Stats/Outreach Updates:

New Business: Arlington Partnership for Children and Youth and Families gave an introduction of their mission and purpose and asked that they be updated on the committee's priorities so that the Partnership can adequately advocate for those areas.

At the Wellness Roundtable the idea of system mapping was discussed. The goal is to identify the flow of information to parents, line staff, etc. in an effort to improve branding and communication strategies.

The possibility of combining APCYF meetings and CYCSCB meetings was discussed at length. APCYF members will begin sharing community feedback with CYCSB.

The Student Services Advisory committee gave recommendations to the school board to increase school social workers and psychiatrists over a 3 year roll out. The first year was good, the second year required increased advocacy and the third year will likely be the same. School enrollment numbers are up so this effort is increasingly needed.

APCYF will share the newest youth data with the CYCSB in following meetings.
