

# JFAC Community Roundtable Written Submissions

04-Apr-17

neighborhood	comment	RT location	Tag 1	Tag 2	Site Specific
fairlington	Multi-purpose space like adding recreation space on top of buildings.	Shirlington	co-location	decking	
bluemont	Multi-use facilities	Key	co-location		
bluemont	Engage under represented residents.	Key	community engagement		
fairlington	Because of such limited space, please try to think outside of the box.	Shirlington	creative thinking		
bluemont	build up and over	Key	decking		
fairlington	For committee members-do address the fact that there are very few members for south Arlington.	Shirlington	equity		
Glen Carolyn	We need to carefully assess how our (taxpayer money is used. Do not be starstruck for commercial developers (Crystal city/Rosslyn) and give away the farm to build empty high-rises. Wasting valuable land, money and resources.	Shirlington	fiscal stewardship		
Donaldson run	Adopt an investment approach to land acquisition. County should purchase larger tracts when available regardless of immediate need.	W-L	land acquisition		
barcroft	Forget " Zoning". Think co-functionality from jump. Acknowledge that it might (ha!) be expensive. Get the land.	Langston Brown	land acquisition-pro		
fairlington	Look to lease properties.	Shirlington	lease		
Donaldson run	Question the basic premise of development/density's desirability. Space/resources are limited. Growth cannot be unlimited.	Long Branch	long range planning		
Glen Carolyn	Arlington is a residential community first. Do not build first, then try to figure out how to support. Figure out how the county can support and IF it can support further growth and development before moving forward or issuing more building (commercial/mixed use permits, or rezoning property.	Shirlington	long range planning		
Donaldson run	Encourage preservation of neighborhood character -buffering of noxious uses, decentralizing/smaller scaling of essential services where possible.		neighborhood characteristics		
bluemont	county and schools work together	Key	School/County Coordination		
nauck	multi-use should be a top priority for any new build and make them just retail/housing. We should look at housing civic space /recreation centers/roof top facilities	Shirlington	affordable housing	co-location	

Douglas park	Co-location but co-location to include committed affordable housing to make sure that other residents who don't always get represented	Shirlington	affordable housing	co-location
Columbia forest	be sure that decisions about land and county budgets are always premised on the principle that the county IS the people who live in it, not the landscape r the historic heritage or the real-estate value. This means keeping the county a place where families that have invested their lives in it-their children's schooling. their neighborhood friendships, etc.--can count as much as possible to remaining in it. And that means investing in affordable housing	Long Branch	affordable housing	neighborhood characteristics
	Save space for affordable housing.	W-L	affordable housing	
Ballston	Affordable housing is important, but should not trump all other considerations.	W-L	affordable housing	
barcroft	increase affordable housing in the new multi-use buildings (e.g., VHC properties, etc. as they are used for new projects	Long Branch	affordable housing	
Ballston	JFAC needs to communicate with the board and planning commission about the impacts on county services that proposed site plans and developments will cause. This should be a required report for any rezoning requests and developers should be assessed for funds towards schools and services rather than public art.	W-L	assessment-impacts	
leeway overlee	need an inventory on public buildings, commercial buildings, schools, parks, open space; need a prioritization list of needs (pertaining to current space)	W-L	assessment-needs	
Quincy park north	Evaluate which service/needs are location specific (i.e., emergency services) and which are less location specific (i.e., bus storage). Which services should be metro-accessible, which can be further from metro (cheaper).	Central Library	assessment-needs	
barcroft	Multi tasking /use of properties (i.e., tennis courts on roofs of schools	Shirlington	co-location	decking
cherrydale	Keeping the buck property intact increases the flexibility of the space. There is not other space of this size. Find the best possible multi-purpose use to achieve the best use for as many people as possible.	Central Library	co-location	Buck
Arlington Ridge	multi-use -including vacant office use.	Key	co-location	
	Consider multi-use buildings and build up rather than out. Some current facilities could be repurposed this weary (barcroft center as example).	W-L	co-location	
Ballston	Child care and senior services are important unmet needs.	W-L	co-location	

cherrydale	Site flexibility should be a top property for evaluation property options.	Central Library	co-location
shirlington	Rethink multi-use beyond condos/harris teeter.	Shirlington	co-location
barcroft	consider multi-use, such as plows and buses using school parking lots (and bathrooms. Schools are closed on snow days	Long Branch	co-location
Ballston	Need to investigate multiple uses of a given site (bus parking under ground with green space above that provides room for community garden, pollinator gardens, and wildlife habitat)	Kenmore	co-location
Courthouse	the buck property -or any property should not remain vacant during decision making because it reduces incomes all around	Langston Brown	commercial
Quincy park north	increase emphasis on community benefits will help gain acceptance	Central Library	commuinity benefit
bluemont	developers of new apartment buildings should have there impact fees go towards schools, whether or not the county thinks many kids will be living at that building	W-L	community benefit
Donaldson run	I suggest that the first step when considering development of a site is to convene a meeting of neighbors surrounding the area to give input as to what they would like to see on the site. Not that this input would be the final decision, but that elements of what is desirable to neighbors might be incorporated into the plans for the area	Long Branch	community engagement
	Keep the process transparent and stay in touch with affected neighborhoods before any decisions are made.	W-L	community engagement
shirlington	On the pavement community outreach.	Shirlington	community engagement
barcroft	include or reach out to affected neighborhoods in all changes	Shirlington	community engagement
barcroft	cost and effect of all moves	Shirlington	cost/benefit
shirlington	think creatively about co-located facilities and repurposing existing buildings for other uses	Key	creative thinking co-location
cherrydale	Think big: don't let the county always force you to solve the immediate problem before you.	Key	creative thinking
barcroft	look broadly-big picture, includes NOT taking things off the table without consideration (e.g., properties, uses, zoning, budget	Long Branch	creative thinking
Williamsburg	The last five years are the hottest on record. Climate change is real. Communities are turning 'to trees as green infrastructure to mitigate and adopt', to it (Urban forests , Jill jonnes, p. 342). Arlington needs to be a leader, not out of the loop. show we are forward thinking.	W-L	environment

city of Alexandria	Satellite facilities for infrastructure equipment helps reduce response time to critical water, sewer, electricity utilities in emergency situations	Langston Brown	equity	
Lyon village	Arlington county needs to consider until-use development for all new facilities. Equitable distribution will always be difficult to adaptability will be necessary.	Central Library	equity	
shirlington	I would like to see the needs of the largely underrepresented citizens (our low income population) optimized in this process	Shirlington	equity	
shirlington	share the load of housing school buses , etc. (equal north/south)	Shirlington	equity	
Courthouse	equability of space used for storage is a relevant point to consider	Langston Brown	equity	
nauck	fairly distribute facilities needs throughout the county. South Arlington should not be the dumping ground for all service vehicles, etc.	Shirlington	equity	
nauck	purchase buck property and use for light industrial instead of land swap	Shirlington	equity	
Cherrydale	athletic field space is THE top need-relates to schools and quality of life and why people want to live here	Langston Brown	fields	
Ballston	School and county facilities need not be so fancy, just useful. Look for opportunities to use existing vacant properties.	W-L	fiscal stewardship	
Courthouse	Financial components and costs are important for consideration	Langston Brown	fiscal stewardship	
leeway overlee	need to fully understand what the uses of carline springs and buck property could actually be without significant infrastructure costs	W-L	fiscal stewardship	
Virginia square	Buck property for contiguous use (NO SWAP)	Westover	land acquisition	Buck
Virginia square	VHC swap for Carlin Springs	Westover	land acquisition	Carlin Springs
Donaldson run	County should be aggressive in acquiring industrial area of s 4 mile run for the undesirable uses that no residential neighborhood wants (bus depot comes to mind).	Long Branch	land acquisition	Shirlington Road
alcova heights	Please look at facilities that Must be in close proximity to county residents (e.g., schools, parks, etc.) and prioritize keeping/adding these within county limits. For other facilities (bus/vehicle , impound lots, salt domes, etc.) -look outside county limits for cheaper land near major transportation arteries.	W-L	land acquisition	
cherrydale	Always ask the county if the need could be performed outside the county.	Key	land acquisition	
Virginia square	Land is so important maintain as large an area as opportunity permits.	W-L	land acquisition	

Cherrydale	Buy buck and Carlin springs--and as much additional land as possible	Langston Brown	land acquisition-pro	Buck and Carlin springs
city of Alexandria	Please consider joint use for property purchased in the future.	Langston Brown	land acquisition-pro	
Lyon park	Please think strategically: develop an effective system for identifying future needs; and defined inventory of possible sites to acquire over the next 25-50 years. Make decisions based on information from these systems.	Central Library	long range planning	
Lyon village	Think long term, but do not forget that some opportunities may not present themselves again. Timing is everything.	W-L	long range planning	
glen carlyn	need for long term , county wide planning vs short term issue specific planning	Long Branch	long range planning	
barcroft	consider ALL options-rezone if necessary. Space not already on this list should be considered	Long Branch	long range planning	
Lyon park	this meeting did not address long range planning , which is my main concern. Lack of long range planning is what has caused the pressures were are facing	Langston Brown	long range planning	
courthouse	Build an overall vision that includes all land needs. Build out a long range plan for meeting them. No single opportunity will meet all, and they will change over time. But this way, with each action, Arlington will see how we are progressing against our overall goals and what next steps should be our priority.	Key	long range planning	
Quincy park north	Here needs to be a more holistic approach to strategic planning that includes county and neighborhood services, requirements and benefits. Focusing on individual properties , such as buck-may not be effective given the other development being proposed at the ed center, YMCA, and red top cap locations. All of the development, planning, purchase options, should consider short, medium and long term planning and uses.	Central Library	long range planning	
Lyon park	My top message is that the recommendations need to take the long view, be bold and examine 'the way we've always done it". Use the work done in CFS s a basis, including all the info on demographics and ? , to inform decisions. But, don't look to just the short term--the easy or the obvious.	Long Branch	long range planning	
Virginia square	Obtaining contiguous property for county use to enhance usability of existing county facilities /schools/parks for future expansion or improvement of public use. Avoiding development of space which limits use in the future such as buck/arcland swap	Westover	mixed use	Buck

leeway overlee	need future facilities to be 'mixed use' to support multiple needs, whether they be short term or long term	W-L	mixed use	
Virginia square	Buck: impact to the neighboring community of SFH, value of property as being walkable to metro,	W-L	neighborhood characteristics	Buck
Donaldson run	Consider community character/compatible appearance and use-when making decisions about use.	Long Branch	neighborhood characteristics	
Virginia square	Consider the general character of the county and communities.		neighborhood characteristics	
	Don't forget trees and green space in any plans /deals. Also, environmental impact statements are needed.	W-L	open space	
Lyon park	Keep the environment in mind-green space, trees, pollution control, over -building and density.	Central Library	open space	
glen carlyn	The existence of open space should make open space as a priority. Develop where there is already density and public transport to serve it. No more schools on carline springs road.	W-L	open space	
nauck/alcova heights	Open space-we have too many people and not enough space to 'live'	W-L	open space	
barcroft	health through green spaces-if light industrial will go up -Must have study of impact on air quality for any nearby schools and playgrounds, where kids spend up to 10 hours a day	Long Branch	open space	
Lyon park	Arlington needs to adopt a policy of recycle-reuse-upcycle for all building needs. Park lands and greenways are not adequately valued in our planning processes or feasibility studies	Langston Brown	open space	
Lyon park	Look for solutions w neighboring counties for storage space.	Central Library	out of county property	
nauck/alcova heights	Use arland to build an 8 story parking space for county light industrial use.	W-L	parking-bus	Shirlington Road
Lyon village	Partnerships with other entities may offer creative solutions to the county's facility issues, that the county can not solve on its own.	W-L	public/private partnerships	
glen carlyn	Parents don't all want another comprehensive high school.	W-L	school planning	
cherrydale	Not planning adequately for schools in the long term has far reaching effects on our future citizens. The constant increase of high rise apartment/condo buildings will certainly mean more children. We need more school space.	Central Library	school planning	
cherrydale	Remember that the county has historically failed to plan land use for schools.	Key	school planning	
bluemont	School needs, growing number of students new schools, location.	W-L	school planning	

bluemont	plan for increasing capacity needs well in advance. Schools are overcapacity the minute they open and the need is growing. We need to get a handle on capacity of schools and other infrastructure before the need is there	Kenmore	school planning	
barcroft	include school decisions	Shirlington	school planning	
cherrydale	We need one central facilities group-that serves both APS and the county. This would lead to cost efficiencies and co-location.	Kenmore	school/county coordination	co-location
Arlington Ridge	Joint planning discussion with the school board.	Key	School/County Coordination	
dover-crystal	Have county and schools plan together	Shirlington	School/County Coordination	
shirlington	have a member from school FAC committee or board present at all JFAC meetings	Shirlington	School/County Coordination	
cherrydale	Coordinated action between the APS and county to work together to identify land needs and set priorities jointly.	Kenmore	school/county coordination	
cherrydale	This is your chance to bring the county and school uses together.	Key	school/county coordination	
cherrydale	Analysis of all publicly around sites both APS and the county-and their characteristics and the analysis of all physical needs of APS and the county, and their needs/characteristics. Let's find the intersections. This will also help with co-locations.	Kenmore	school/county coordination	
Virginia square	Opportunity around buck preparty is not built for an increase of vehicle traffic. Is there a possible exit from the buck property onto 66 or some who away from all of the school children walking to and playing around the swath from Science focus to the wash/lee HS.	W-L	Traffic congestion/safety	Buck
glen carlyn	should the county decide to acquire the carline springs road, VHC site, the use must be considered in tandem with a comprehensive traffic study and remediation plan. That road is unsafe for children walking to schools, for residents trying to turn into their neighborhoods, and for wildlife that tries to stay out of our way, but turns up in the morning as roadkill.	W-L	traffic/safety	
Quincy park north	need to look at traffic flow impacts and improvements needed	Central Library	traffic/safety	
Arlington mill	as we continue to grapple with growth and increased density in Arlington, consider a maximum density for the county. Natural ecosystems have a carrying capacity, human systems probably should too	Long Branch	urban density	
Virginia square	Simply because an areas was zoned industrial when the RR was operating, that zone may not be a wise use in the current environment.	W-L	zoning	Buck

Quincy park north	look at development actually possible on a site-given use constraints	Central Library	zoning
Virginia Square	acquire all the Lee Highway properties - might help the Affordable Housing Master Plan reach goal of geographical distribution	Arl Mill	affordable housing Lee Hwy
Columbia Heights	Acquire all the Lee Highway properties - might help the Affordable Housing Master Plan reach goal of geographical distribution	Arl Mill	affordable housing Lee Hwy
	Follow affordable housing master plan.	Shirlington	affordable housing
	Affordable housing is a crucial need-listen to neighborhoods (Lee highway and Rosslyn-WANT affordable housing.	W-L	affordable housing
	Affordable housing	W-L	affordable housing
bluemont	I'm active in VOICE with strong support for affordable housing. This received almost we comment which appeared to be implicitly accepted.	W-L	affordable housing
glen carlyn	Within #1 above, how to prevent Arlington from becoming so expensive many people are priced out?	W-L	affordable housing
Williamsburg	The county should be conducting environmental impact studies for all development plans and projects.	W-L	assessment-environmental
Aurora Highlands	Sites should be scanned and scored for deal-breakers (e.g., contamination, utility, geography), especially swap sites	Arl Mill	assessment-environmental
glen carlyn	need to have widely disseminated impact assessment on environment and traffic prior to any decisions being made	Long Branch	assessment-environmental /traffic impact
glen carlyn	Distribute and decentralize industrial services--as appropriate do both environmental and traffic impact studies (and reports of land use. These studies are extremely important for the VHC site on Carlin springs road. This is an extremely valuable piece of land for green space, animals, water shed, environmental education, reconsider multi-use at VHC	W-L	assessment-environmental/ traffic impact Carlin Springs
	Ask for impacts and mitigative steps from your advisory groups.	Key	assessment-impacts
Westover	collect data and stick to the facts. The public will respond to that	Kenmore	assessment-impacts
Ballston Virginia square	Consider what nearby developments will also have significant impact on a given site.	Kenmore	assessment-impacts
glen carline	needs must inform decision making/discussion.	Glencarlyn	assessment-needs
Ballston Virginia square	please consider opportunity costs on repurposing a site. (i.e., what is the community impact on displacing childcare facility when the county has a childcare crisis	Kenmore	assessment-needs
Dominion Hills	Two guiding principles are co-location and building up.	Westover	co-location decking

Virginia square	Buck: usefulness of location near schools (WL/Science focus) and Hayes park, central library-us site for schools, parks, fields--and co-locate with senior center/day care.	W-L	co-location	Buck
	I support use of the Ed Center for W-L expansion, so the Buck property is logical place for the additional fields and/or parking for the larger school.	W-L	co-location	Buck
	Think of multi-use on both buck and Carlin springs properties and being willing to spend extra dollars to facilitate putting schools, athletic fields and parks together.	Langston Brown	co-location	
	mutli use, build up	Shirlington	co-location	
	co-location-co-location -colocation	Shirlington	co-location	
	Explore efficiencies and open space and multi-use.	W-L	co-location	
EFC/Lee Hwy	Arlington needs space for recreation AND Schools.	Westover	co-location	
Ballston Virginia square	Sports facilities and multi-sports facilities-recreational centers are need for ALL ages, toddlers-seniors. We need a community center that is metro accessible on the orange line.		co-location	
Yorktown	Shared facilities (park adjacent to schools so shared open spaces).	W-L	co-location	
Yorktown	· Policies that encourage County goals – walkable neighborhood schools, multiple use buildings, (parking underground, parks at ground level, building use, courts on top.	W-L	co-location	
boulevard manor	Encourage non traditional and innovative co-location uses of properties.	Long Branch	co-location	
Jamestown ES	Purchasing large parcels of land to use for schools & recreation makes sense to me.	Westover	co-location	
Arlington Mill	Purchase the land, focus on light industrial and SPACE for co-location	Arl Mill	co-location	
Bluemont	I support building up and multiuse to use valuable /limited land. I oppose the use of existing natural spaces, which will never come back.	Westover	co-location	
Columbia Heights	Co-location on all County/school sites. Think of T.J. Think of Arlington Mill. Think of Silver Spring's new library with senior citizen housing	Arl Mill	co-location	
Old Glebe	Better to co-locate the essential ops near Trades Center. May need gas/service in N. Arlington but more efficient to co-locate.	Westover	co-location	
Ballston Virginia square	We need a community center (one use would be for seniors in Arlington that is metro accessible on the orange line.		co-location	

Cherrydale	Use the space we have to serve multiple purposes, in flexible (e.g., classrooms become meeting space) and innovative (e.g., equipped for distance learning) ways, in locations where they are needed.	Westover	co-location
glen carlyn	Consider multi-use of land (park, day care, county office spaces, outdoor education.	W-L	co-location
	Allow extension of current leases in Buck space until Arlington county decides what to DO, so that space is not vacant.	Langston Brown	commercial Buck
forest glen	require the building to contribute to roads, schools, etc.	Central Library	community benefit
rock springs	prioritize essential services first based on the acreage you need. Think about a fee on developers for providing schools, etc. this is a comprehensive county problem	W-L	community benefit
	It would be good for the county to open discussion about eminent domain and educate taxpayers on future potential need to acquire parcels in this way.	Central Library	community engagement
	Continue to get feedback throughout the process - not just this round of 10.	Arl Mill	community engagement
	I think these meetings should be facilitated with an overall purpose of shared best interest and shared pride in being an Arlingtonian.	Westover	community engagement
	Have full representation (i.e., double income no kids not represented, millennials not represented, religious groups not represented.	Key	community engagement
glen carlyn	it would be immensely helpful to have more information about the priority county needs-facility needs	Kenmore	community engagement
aurora hills	I'm worried that residents pet project will 'trump' the operational needs of the county.	central library	community engagement
boulevard manor	More communication on needs and uses of land with community members--especially w members of disadvantaged demographic groups.	Long Branch	community engagement
Dominion Hills	JFAC is doing an excellent job in reaching out to all communities and explaining the opportunities and limitations in meeting all community needs, especially for essential operating services.	Westover	community engagement
glen carlyn	consolidation of facilities-related information on the county website, organized, easy to use	Long Branch	community engagement
Bluemont	I am new to this area (land use issues) -- a better overview of the properties at issue, with pictures, would have helped, if just for a few minutes.	Westover	community engagement
Bellevue forest	it seems to make sense to look at each property and determine top five uses for each and present them to the public.	Central Library	community engagement

Madison Manor	In my opinion, the meeting might have been more productive if we had a few maps with info to describe the sites and give us spatial context for discussions.	Westover	community engagement	
nauck	Leverage the civic associations.	FCC	community engagement	
nauck	More frequent newspaper updates for residents.	FCC	community engagement	
Ballston/Virginia square	Must consider GLUP /neighborhood (civic association) views and conservation plans, and often surrounding developments.	Kenmore	community engagement	
Ballston Virginia square	when presenting data/conclusions in final report, ensure you capture areas of consensus and areas of contention/disagreement	Kenmore	community engagement	
glencarlyn	I would like for JFAC to mitigate the lobbying that constituents do with regards to the most equitable distribution of needed services.	W-L	community engagement	
Arlington Ridge	Communicating with Residents. Problem with outreach, civic associations don't draw enough middle age and younger residents. Need a 'draw' (to get them interested/involved)	FCC	community engagement	
Arlington Ridge	Urban/suburban different perspectives. How to articulate tradeoffs?	FCC	community engagement	
Levine Music/Westover Baptist Church	If anyone from JFAC would like to tour "the arc" -- town hall, education, arts, recreation community -- that I referred to as a model , inexpensively built, community transforming center I will be glad to facilitate such. It's an amazing public-private partnership that puts together arts, social service, health, education, and recreation partners. 110,000 on 16.5 acres --thearcdc.org	Westover	community engagement	
	Find a way to ask people that are not at RT --about their thoughts. This should not be the loudest voices. It needs to be the best decisions.	Kenmore	community engagement	
	Community involvement essential in decision making process	W-L	community engagement	
Ballston Virginia Square	I would look closely at cost benefits of siting storage facilities out of the county.	Langston Brown	cost/benefit	
overlee	Think big for future use of the large buck site instead of breaking it apart.	W-L	creative thinking	Buck
	The County should engage expert consultation on sustainable urban development to provide potential innovative solutions that will meet the whole range of needs and interests.	Westover	creative thinking	
	Plan clearly , comprehensively, and creatively.	W-L	creative thinking	
	Think outside the box.	W-L	creative thinking	

clarendon-courthouse	Creativity is needed	W-L	creative thinking		
bluemont	I believe more attention should be given to the optimal bldg. and land architecture and planning can make a density more attractive	W-L	creative thinking		
	Buck should include 2 decks over I-66. bottom for parking, top for natural meadow habitat park.	Key	decking		Buck
	Build above highway 66 and RT 50. consider not the cost of these options but also opportunities costs of not using these sites efficiently.	Kenmore	decking		
	Work to preserve Arlington's communities-parks and schools and businesses with walk areas think about 'air space' across the county.	Kenmore	decking		
Bellevue forest	please be sure to include multi-use recreational facilitation as appropriate sites on roof tops	Central Library	decking		
dover	Build over I-66 for fields, industrial use, etc.	W-L	decking		
Ballston/Virginia square	Think smarter when it comes to using county land and searching for new land opportunities-outside for the county-so that unreasonable increasing density and over development in residential neighborhoods can be avoided.	Kenmore	density	land acquisition	Carlin Springs
Bluemont	Halt increased density – this creates the scarcity problem. It doesn't have to be that way.	W-L	density		
	· The County is in overgrowth mode – slow it down. Fix what we have now – quit adding more people on top of where we are now.	W-L	density		
Old Glebe	No more approval for density w/o assurances that we can handle more people. Stop letter developer get their way without paying for infrastructure.	Westover	density		
ashton heights	Within open space – it is extremely important to pay attention to our environment and our contributions to it. To that end, native plants are infinitely more valuable to supporting the natural environment – only native plants support the native environment. So native plants are important for themselves – but also native plants are cheaper to maintain ad therefore more budget friendly. And, as part of native plants, a native tree canopy for the County is important for our future health and economic interests.	W-L	environment		
shirlington	Protect and enhance water quality of all streams in the County, using an overall view of entire stream system inside and beyond the County. Four Mile Run is a unique resource that needs to be preserved and highlighted as a benefit.	W-L	environment		

	Don't build the aquatics facility. Poor location to access, not serving all of Arlington, zoned P-S same as trades. Use this site for a trades center. Consider aquatics at Carlin Springs. It would serve more diverse communities.	W-L	equity	land use
Glen Carolyn	Despite comments to the contrary, equity SHOULD be a guiding force for this committee. S. Arlington neighborhoods lack equitable service in regards to maintenance and beautification of infrastructure , and traffic flow on a major road artery. Those who disagree are invited to tour my neighborhood and talk with its inhabitants. I support land swap, then focus on defensible use of it!	Westover	equity	
not available	North /south distribution ONLY makes sense if facilities are needed in both areas equally. Separate and equal spaces divided into n/s Arlington. I doubt are necessary for all services (I'm a south Arlington resident).	FCC	equity	
	Equity between North and South Arlington should be considered but NOT priority. Best utilization of existing County land should have priority. Life is NOT fair.	Westover	equity	
	Pitting schools against parks or younger residents against older ones is divisive and won't lead to effective, innovative solutions.	Westover	equity	
shirlington	Improve equity between north and south Arlington in terms of siting needed County support facilities.	W-L	equity	
shirlington	Improve equity between north and south Arlington in terms of siting needed County support facilities.	W-L	equity	
boulevard manor	Distribute and decentralize industrial services--spread the pain more.	Long Branch	equity	
Dominion Hills	The equitable distribution of these services is important while looking holistically at the needs.	Westover	equity	
boulevard manor	equity for ALL groups or viewpoints		equity	
shirlington	Also, we must break the generation old stigma that exists between north and south Arlington.	FCC	equity	
shirlington	Lease consider all available commercial land (north and south) to meet the county needs. South Arlington residents are concerned that there is a disproportional increase in county commercial land use in their neighborhood.	Kenmore	equity	
	do studies beforehand for feasibility before making big decisions and financial commitments	Langston Brown	feasibility study	Buck
Donaldson Run/Sports commission	Sports commission supports putting fields on buck, over 66, and turning concrete sports courts into fields by laying down synthetic materials.	W-L	Fields	

	County needs more baseball fields. Competition for those who are not on the school team makes practice run into late evening. This is also a density problem at the schools.	W-L	fields		
Williamsburg	Forget about winning awards - be more pragmatic, get better bang for our dollars.	Westover	fiscal stewardship		
Jamestown ES	When new facilities are built, I want to see smart, judicious use of money, not "world-class" facilities.	Westover	fiscal stewardship		
glen carline	why cant Arlington say 'no'	Kenmore	fiscal stewardship		
Tara-Leeway Heights	For APS, concentrate on functionality rather than winning award. Discovery ES is lovely but indefensible when other schools are so crowded.	Westover	fiscal stewardship		
	GLUP for Buck =Low residential. Does this mean anything?	Langston Brown	GLUP		
glen carlyn	· Carlin Springs (VHC)-keep urgent care at current location. If not, use it for emergency Operations Center	W-L	land acquisition	emergency care	Carlin Springs
pentagon city/Lyon park	Buck: acquire it, but don't do the swap with arcland in order to preserve maximum flexibility for the future at all the public sites along (and possibly over) I66 ni the aggregate.	Key	land acquisition		Buck
Williamsburg	I also think buying the buck property and using it for a non-industrial use would allow the property to fit in with the residential area.	W-L	land acquisition		Buck
pentagon city/Lyon park	VHC: sell them the Edison site for the Carlin Springs site and cash for the reminder. Push to acquire the condo/parking site at carline springs as well and to make sure the lee highway sites are in the mix for future planning there.	Key	land acquisition		Carlin Springs
Williamsburg	I agree with some of the others that swapping the 11 acre Carlin Springs property for the Edison property with vhc may be a no-brainer because of the large amount of land-to use as a school.	W-L	land acquisition		Carlin Springs
glencarlyn	I am most concerned that people do not appreciate the unique land attributes of the VHC carline springs site.	W-L	land acquisition		Carlin Springs
Bluemont	Do not release County-owned land.	W-L	land acquisition		
shirlington	Please buy/swap any commercial land that is currently available to meet long term need.	Kenmore	land acquisition		
fairlington	DO the VHC land swap	FCC	land acquisition -pro		Carlin Springs

Westover	Do not swap the Buck site. Washington & Lee is right across the street and is severely overcrowded. Why not use the front of that site for school-related activity and retain the back for Dynamic Gymnastics? Or move the county functions that are in the building next to the planetarium so the school can take over that building and move the county functions to the Buck site.	Westover	land acquisition-opposed	Buck
	Instead of a land swap with Virginia hospital center, do a cash deal and use the money for better use. The Carlin Springs site has limited utilization and uses.	Shirlington	land acquisition-opposed	Carlin Springs
	Take the money for VHC.	Shirlington	land acquisition-opposed	Carlin Springs
fairlington	Do NOT do the Buck land swap, but buy the property. More time is needed to determine the appropriate use of the buck property and the land in Shirlington.	FCC	land acquisition-pro	Buck
	Top priority: Buy as much land (now at low interest rates). Land prices will only increase.	W-L	land acquisition-pro	Buck
	The County needs, absolutely, to obtain both the Buck and Carlin Springs properties for uses anticipated now but especially unanticipated and changing uses in the future. The Arcland swap should also be considered, especially if an option to purchase the parcel back can be negotiated with Arcland. It would be very short-sighted to accept money for the Edison site, in fact downright irresponsible	Arl Mill	land acquisition-pro	Buck and Carlin Springs
Penrose/Arlington Heights (on border	Large land purchases give the County & Schools increased flexibility	Arl Mill	land acquisition-pro	
	I support county acquisition of land for unspecific future uses.	Central Library	land acquisition-pro	
not available	If land is available, the county should buy it or swap for it	FCC	land acquisition-pro	
not available	Priorities will change over time, but I believe that the county will need all available land it can acquire in the foreseeable future.	FCC	land acquisition-pro	
	Buy up all land you can get.	Arl Mill	land acquisition-pro	
	We need to acquire as much land as possible. Preserve our open space and add to it.	Arl Mill	land acquisition-pro	
	KEEP AND OBTAIN MORE LANDS.	Westover	land acquisition-pro	
	Aggressively acquired land with bonds floated proactively for a land investment fund.	Key	land acquisition-pro	

	Arlington county should purchase as much land as possible whenever it becomes available.	W-L	land acquisition-pro		
	Pursue all possible land acquisition asap.	W-L	land acquisition-pro		
Hyde park condo	Like idea of creating und for purchase of property parcels for county needs	Central Library	land acquisition-pro		
Westover	buy land	Kenmore	land acquisition-pro		
EFC/Lee Hwy	If land is available, we should get it one way or another.	Westover	land acquisition-pro		
Dominion Hills	Advocate for purchasing / acquiring large usable (for multiple purposes / max flexibility) parcels of land.	Westover	land acquisition-pro		
shirlington	County should buy property at every chance and not make property swaps that result in loss of acreage	W-L	land acquisition-pro		
Douglas Park	Concentrate on large parcels, particularly with industrial use zoning.	Arl Mill	land acquisition-pro		
	· Acquire land – open land is critical! Buy anything.	W-L	land acquisition-pro		
Douglas Park	The main focus should be to purchase the largest, contiguous parcels of land possible. What gets put on that land over the next 10-50 years can change but we need the land first.	Arl Mill	land acquisition-pro		
dominion hills	Please plan for the long term and error on the side of land acquisition-particularly in relation to future school needs. Land in Arlington is scarce and expensive-and it will only grow scarcer and more expensive.	Kenmore	land acquisition-pro		
Old Glebe	GET THE LAND (100 year mistake to take cash for land). Carlin spring is a great location centrally located. IF you get Carlin Springs for schools, I would be OK if you gave up part of Buck to get the Arcland Property for bus and essential needs. (need to make sure to keep part of Buck that's usable)	Westover	land acquisition-pro		Buck
Quincy Park N	Short term-Buck property should not be a land swap. It would be best served as a school/field/open space. Look into decking over 66 please.	W-L	land swap-opposed	co-location	Buck
overlee	No swap land with arcland for buck property. Sore to eyes with storage facility in the middle of a beautiful north Arlington site	W-L	land swap-opposed		Buck
	· Say no to some development, i.e. Cube Smart on Buck Property.	W-L	land swap-opposed		
Ballston/Virginia square	Absolutely deck over I-66.	Kenmore	land use	decking	

Langston	In favor of looking at VHC property on Carlin Springs to be used as joint OEM/fire station/emergency services for residents in the southwest corridor	W-L	land use	Carlin Springs
Penrose	what is consideration for recreation outside of more fields- appreciate suggestion made. Great question about county facility for business incubation	Kenmore	land use	
shirlington	Schools and park space are important, however, we must not lose sight of the 'dirty' needs of the county. Trucks, buses, DES, etc. These dirty services are vital and should be regarded as high, if not higher than schools and parks.	FCC	land use	
Ballston	Better utilize existing space-use empty office space for temporary or surge classrooms.	Kenmore	land use	
Ballston/Virginia square	Consider efficiency of use, not geographic equity.	Kenmore	land use	
Ballston/Virginia square	Must consider recent use/history of property.	Kenmore	land use	
	With the density of schools near Carlin Springs and the need for S Arlington emergency services, I support use of the hospital property for emergency/fire station.	W-L	land use	
forest glen	since we are such a small county, can we limit the number of residential building? We are always having tremendous problems with accommodating students that exist and the proposed new schools will not take care of those.	Central Library	lease	
	All needs should be considered together and planning should be done for the long term. Maintaining the environmental and neighborhoods is important.	W-L	long range planning	neighborhood characteristics
Quincy Park N	Long term: Buck look at density, already too many high rises, too much population +too many students=too much traffic. Stresses on infrastructure.	W-L	long range planning	Buck
	Long term plan for shirlington should connect with four mile run valley. Especially parking and sports.	Key	long range planning	Shirlington Road
pentagon city/Lyon park	Use principles to make acquisitions with immediate usability and long term flexible potential.	Key	long range planning	
Penrose/Arlington Heights (on border	Please consider using short-term resources for long-term gain	Arl Mill	long range planning	

	No one live spoken with has any idea of what the county's vision is for development. It feels like something ominous that is happening to us-and not a potentially positive vision of a better future that we will benefit from. Long time residents who want to maintain open space and natural values feel like they're being told to get out of the way. this creates a fight or flight response. the board and staff and the advisory commissions should focus more on explaining their vision for growth. and neighborhood preservation as this would help greatly to alleviate fears and aim to build trust.	W-L	long range planning
	#1 priority is a holistic, comprehensive vision for the future of whole county, including schools. We can no longer make decisions and build or plan just because an opportunity comes up. Piggyback on something without a broad holistic plan has to stop	W-L	long range planning
	think long term.decouple use from bigger picture-space. Think utilization over time	Key	long range planning
	I don't agree with the "givens" – that continuing population growth at the same pace has to continue. Please make these bedrock decisions first before focusing on individual parcels, individual developer pressures, and continual permits for greater density/more condos and apartments. Wider lens on this issue.	W-L	long range planning
Buckingham	county needs less development (change the GLUP to achieve this	W-L	long range planning
clarendon-courthouse	Before allowing for more development, whether private or Arlington sponsored the present needs for services, schools, parks, etc. This needs to be taken care of first. having developers pay into a fund for these matters is essential.	W-L	long range planning
Ballston Virginia square	We need to look at all sites at the same time and not in one offs. Need an integrated approach to all of these facility needs.		long range planning
Yorktown	Think long term. Acquire land for X.	W-L	long range planning
bluemont	The mix of complicated alternatives of sites, traffic, mix of land uses, populations might be integrated into a computer program that would be useful in receiving and decision making.	W-L	long range planning
boulevard manor	Think long term.	Long Branch	long range planning

Westover Village	As a member of Community Facilities Study, I feel it is most crucial that JFAC be concerned with long-range facility decisions rather than being bogged down in upcoming specific site discussions. Recent experience suggests future planning has been lacking with some County, school, firehouse and operational decisions.	Westover						
								long range planning
boulevard manor	there is a need for an ongoing fund for acquiring land for unspecified purposes (to be determined later (needs inventory, potential use, have a coordinated long range plan that matches needs with land sites, site considerations of individual properties, dollars available, does the proposal comply with the long range plan							long range planning
glen carlyn	County needs a vision. Where are the county goals? Include schools , population planning, traffic planning, green space.	W-L						long range planning
	Long term view and planning essential	W-L						long range planning
shirlington	Preserve some area in County for light industrial uses such as auto businesses in Shirlington area.	W-L						misc
	Buck Space-allow for mixed use, allow unique businesses that cannot normally utilize regular retail space to be given a smaller area to run.	Langston Brown						mixed use Buck Buck
Westover	Dynamic Gymnastics serves a great need in the County, please allow them to keep their lease.	Westover						mixed use Buck
clarendon-courthouse	The Buck property would be great location for school expansions and fields, especially if merged with Hayes Park. Also, building a space above I 66 would be a perfect opportunity to expand usage.	W-L						mixed use Buck
Virginia Square	Use the Buck property in a way that is consistent with the vision of density and walkability from the metro corridor. Use it for schools, parks, fields, recreational facilities to serve the current and, near-term forecast (~3000 new units within 1 mile) and likely larger-term increases in density	Arl Mill						mixed use Buck
pentagon city/Lyon park	JFAC should keep in mind that each use does not need its own dedicated permanent square footage. Uses can be stacked vertically and can share the same space at different times. The county should make sure to consider how needs and technologies may change in the future and whether there are other landowners it could share space to meet needs.	Key						mixed use
Penrose/Arlington Heights (on border	Mixed use for public/private use works well in places like San Diego where this is high demand and a vibrant community culture	Arl Mill						mixed use

	please plan for services that support residents day to day community needs. Arlington lacks community planning. Schools, parks, trails and community centers foster urban communities. Once a more comprehensive plan for current and future needs is put forth, the other sectors can be filled in (like support services). Please do NOT put up industrial complexes or buildings in these spaces. Arlington needs community structure	W-L	mixed use	
EFC/Lee Hwy	Let's build up and build SMART, making buildings/land multiuse	Westover	mixed use	
Ballston	Arlington needs incubator space (commercial kitchen space, room for new small business) -look at county storage underground with community space above.	Kenmore	multi	
Not available	the buck property should be used for purposes compatible with nearby schools and able to be utilized on a site with limited transportation access. That said, active light industrial was seen appropriate given the size, location, and relative isolation of the site. Such uses should be buffered to protect as much as possible adjacent residential neighborhoods.	FCC	neighborhood character	Buck
glen carlyn	please be aware of the effect of bright lights from the sites on nearby homes	W-L	neighborhood characteristic/impact	
Virginia square	Buck: if the cube storage space goes on the buck property, it should be located in a way that does not prevent future use of the property for schools, etc., and must take into account the homes next door--as all existing buildings are low without bright lights	W-L	neighborhood characteristics	Buck
Bluemont	Make schools and their green spaces priorities. Teachers should not have to be itinerant cart-pushers; they should have their own classrooms.	W-L	open space	school planning
Virginia square	Buck: size of space-greater for open space and schools with fields	W-L	open space	Buck
Buckingham	County needs more open space, meadows and trees; should be first priority for BUCK, Carlin Springs and other sites.	W-L	open space	Buck

cherrydale	with the buck property you could build across s66. if you did, you could connect underutilized green space (hidden pond, cherry valley), expand popular Hayes park and get more value out of these combined park areas-than each one individually. On top of that 2 schools are immediately adjacent to it, east and west. see this property as a way to make the neighborhood more connected and to make green space more connected	Kenmore	open space	Buck
	Be creative about the AHC site on Carlin Springs - preserve the sledding hill.	Arl Mill	open space	Carlin Springs
Williamsburg	The natural resources of Arlington, including trees and wildlife are critical tot the mental and physical health of our residents. The county must do a much better job in protecting its tree canopy and wildlife habitat. Please do not allow for the clear cutting of our few remaining green spaces.	Long Branch	open space	
	Need to consider decreased demands on parks and open space as population increases. Move focus to maintaining quality of life	Shirlington	open space	
	Consider multiple use options including (as appropriate) additional recreational facilities for both active and passive recreation	Key	open space	
	As much nature as possible should be retained.	W-L	open space	
	green space	W-L	open space	
	Very important to make environmental concerns a top profit in all planning. Preserve and increase green space and parkland whenever possible. We are facing global climate change and Arlington needs to show national leadership in how to plan to preserve the planet.	Kenmore	open space	
	Green space is vital	W-L	open space	
Hyde park condo	need open space	Central Library	open space	
Williamsburg	Parks, open spaces, trees, need to be protected.	Westover	open space	
ashton heights	As we become a more urban county, it is more important to efficiently use the land that we have. So the work JFAC is doing is very important. It is also important to keep all the pieces in mind. And open space needs to be kept in the mix.	W-L	open space	
clarendon-courthouse	The property in clarendon behind whole foods between Clarendon and Wilson and between Orvill and Cleveland streets would be a great park that is sorely needed I the center of a highly dense and developed area and one of the last possibilities to have such a spot.	W-L	open space	

shirlington	Protect current open spaces in County, especially for non-organized recreation such as hiking, walking, picnicking, playgrounds	W-L	open space	
Ballston Virginia Square	Invest in our future and in keeping Arlington green. Focus on kids, schools and green space.	FCC	open space	
boulevard manor	Preserve and enhance green spaces	Long Branch	open space	
	· Maintain open space – as much as possible.	W-L	open space	
glen carline	we must consolidate and shrink the building footprint-Arlington so that we have parks, land and trees. Why can't we go up. It is the only way greenspace will be preserved	Kenmore	open space	
glen carlyn	please keep in mind that the carline spring site is surrounded by park land and neighborhood. please consider ecologically--park land around carline springs	Central Library	open space	
forest glen	keep as much green space close to peoples residences.	Central Library	open space	
bluemont	preserve, connect and add to green space and parkland. Green infrastructure is an important capacity that needs to be accounted for along with green infrastructure. As the population grown, the need for green infrastructure grows as well and is critical for the well being of countv residents	Kenmore	open space	
Madison Manor	Open space land for parks, passive recreation etc. is a resource that is undervalued. There are not many objective, quantitative ways to value these lands. There are, however, a large number of quantitative measures to value land for other uses. Not many people would put their children's needs for a "world class school" over open space, quiet space, green space means that sq. ft. will almost never be repurposed back from commercial to park land, etc.	Westover	open space	
forest glen	can Arlington county rent space outside of the county for buses, material storage, etc. it seem our land is too expensive and needs for other uses. Maybe we can join with other jurisdictions--like McLean for school bus storage. We don't need to solve all of our problems within our tiny jurisdiction. we are not an island. work with others	Central Library	out of county property	
Ballston Virginia square	We need to build up above the I66 decks -above the Central Library.		parking	
	Explore storing buses / salt in Pentagon Parking lot, other counties, and around Arlington (distributed)	Westover	parking	
Virginia square	Buck: Using the space for ART or school buses would be a poor use of the property (notice/pollution) next o SFH	W-L	parking-bus	Buck
	Is there Pentagon land the County could use to park buses?	Westover	parking-bus	

	Park school buses at schools.	Langston Brown	parking-bus	
	Analyze requirements (high school students taking public ART buses vs finding storage for school).	Key	parking-bus	
forest glen	Make smarter use of the school land -have parking school buses instead of trying to develop a large school bus parking area.	Kenmore	parking-bus	
Yorktown	Park buses at neighborhood schools, Pentagon.	W-L	parking-bus	
Ballston	Use school parking lots to store buses after hours.	Kenmore	parking-bus	
shirlington	I am encouraging the county to consider the use of schools parking for school buses and utilizes the parking lots for other needs	Kenmore	parking-bus	
	Consider public-private partnerships to achieve desirable ends.	W-L	public/private partnerships	
glen carline	the narrative needs to be flipped. Let's talk about serving the quality of life needs of existing residents not the services/landscaping/facility for new people yet to come	Kenmore	quality of life	
Claremont	Please build more schools with pools vs. an aquatic center	Arl Mill	recreation	
boulevard manor	Arlington is not an island-communicate with those jurisdictions along our borders.	Long Branch	regional coordination	
leeway Overlee	We need more school developments yesterday. Schools can be parks and farmers markets and fields and community hubs but the highest need short and long term is schools (Schools are why people pay for Arlington county prices.	Langston Brown	school planning	co-location
	· Stop residential development until the County gets a handle on needed schools and core services.	W-L	school planning	density
glen carlyn	do not add a fourth school to carline springs neighborhood, please	W-L	school planning	Carlin Springs
Westover	No more density for housing until the school space problem is fixed. No trailers!	Westover	school planning	
Westover	The IB program should be open to the whole County and right now, the school is just too crowded to accommodate all potential IB students.	Westover	school planning	
	Don't wait until the student population is critical before planning for schools.	Arl Mill	school planning	
	More control needed over APS spending. They should use the architects that other jurisdictions use at lower costs. Why are we paying for Montessori programs and schools like HB Woodlawn? Half of our budget goes to 15-20% of the populations. Do we check our enrollments to make sure students are qualified to attend Arlington schools?	Westover	school planning	

	Arlington should also stop increasing residential (high density ) building until they get the overcrowding in schools (all levels) addressed.	W-L	school planning
	Schools need more, but smaller sites/programs around the county (no more 2,000 seat high schools).	W-L	school planning
	Arlington needs both interim and long-term steps to address school overcrowding while still keeping standards high and quality of education consistent with other districts.	W-L	school planning
	Push APS to split elementary schools from K-2 and 3-5. K-2 require ground egress. 3-5 grades can be put in office buildings.	Kenmore	school planning
	We need to get ahead of the school capacity crisis. Schools can be dual use -and if no longer needed in the distant future can become community centers.	Kenmore	school planning
Ballston Virginia square	As you work with developers to redevelop parcels of land, please consider that when you build 12-20 story buildings, people with young children are moving into these buildings.		school planning
Ballston Virginia square	schools are the top need in the county particularly from Columbia pike to lee highway in the corridors and redevelopment		school planning
Claremont	We may need as many as 15,000 more school seats by 2040. Before locking down any free land, make sure there is a viable PLAN for school construction that meets these long-term needs.	Arl Mill	school planning
cherrydale	The #1 priority for the county should be to provide sufficient space for the county's schools. If we truly care about the future of Arlington, we will invest in its young.	Kenmore	school planning
Donaldson Run/	I am most concerned about finding a location for a new high school that sounds alone and is not adjacent to Washington lee. I have elementary children and don't want them to be a massive high school campus with thousands of students		school planning
Tara-Leeway Heights	Rethink choice/option schools. While they are nice to have, it is unreasonable to essentially provide a private school education for the lucky few at the expense of the majority. New HBW MUST be bigger.	Westover	school planning
rock springs	we urge you to remember that people move to Arlington because of the schools but that will no longer be the case if we don't have space for them.	W-L	school planning

Westover	So many difficult choices, and I feel like school overcrowding has become an existential crisis for Arlington. The projections are dire: for the last decade they have only managed to barely keep their heads above water by using trailers. School facilities are crucial to the economic health of the County. If we don't get ahead of the problem we put the county at risk. APS is PATHOLOGICALLY afraid of overbuilding. (overbuild now and in the future you get civic amenities should pop. decline - daycare, pre-k, senior centers, arts spaces) Proposed: 2nd HB at Madison Center; STEM campus at Buck, ES & HS; Reed to 725, use as school & other programs.	Westover			
					school planning
glen carlyn	JFAC must consider the overall community need and impacts whether requested to it or not. For example in siting a high school, JFAC needs to provide some input into the impacts such as traffic congestion on critical arterials during rush hour (Carlin Springs). failure of allowing JFAC to provide input significantly undermines their ability to fulfill their charter.	Kenmore			school planning
glen carlyn	Get creative about schools. Is a comprehensive high school necessary? Or would smaller focused schools be an alternative	W-L			school planning
glencarlyn	People/county/schools need to think outside the box and not let facilities lead discussions that are better left to a broader conversation about diversity and inclusion just like facilities related to school needs to be led by Instruction and Curricula Committee first and facilities come second.	W-L			school planning
dominion hills	The school system will need land for facilities, and once the land has been developed or redeveloped for other uses, its probably gone. So with that in mind, if there are opportunities to acquire large plots of land now, please lean in favor of acquiring it				
		Kenmore			school planning
Williamsburg	Having high school kids take the ART bus may also be a good idea t save money on buses.	W-L			school transportation
	I would urge the county and APS to work collaboratively together to sit needs in creative ways that maximize available space such as colocation of school and county needs	Kenmore		School/County Coordination	co-location
Cherrydale	Take into account equity, transportation, fiscal impact. Break down silos within Arlington (notably APS & Parks). Work with partners - e.g., neighboring jurisdictions and the federal government.	Westover		school/county coordination	regional coordination
Dominion Hills	We must acquire the Carlin Springs site. Look for ways to get all government bodies to work collaboratively on land use going forward.	Westover		school/county coordination	Carlin Springs

	Coordination between county and schools. Planning-not knee jerk reactions to perceived problems.	Key	School/County Coordination	
	Continue schools/county collaboration.	W-L	School/County Coordination	
	I truly hope the county and school board work together to determine the best use of the limited land moving forward. They need to account for macro and micro view of the communities they are serving and all of the populations	W-L	School/County Coordination	
	County and schools should work collaboratively to make decisions.	Kenmore	school/county coordination	
cherrydale	I want to see better coordination of space plans across the county, especially between the school board and the county board. don't consider space to be county space or school space. We all pay the same taxes. Maximize the use of space for everyone in the community	Kenmore	school/county coordination	
Westover	Better coordination between APS and county board is obviously needed and was a theme in tonight's discussion	Kenmore	school/county coordination	
boulevard manor	More communication between different departments of the county.	Long Branch	school/county coordination	
Penrose	very important to consider increased coordination between APS and County for land acquisition and use	Kenmore	school/county coordination	
Tara-Leeway Heights	Break down silos between County vs. APS vs. Park. We are one County.	Westover	school/county coordination	
forest glen	Any existing industrial zoning in shirlington area should not be changed as long as the county has light industrial needs (e.g.,. Vehicle services, bus, parking, etc.)--the back of the house needs.	Kenmore	shirlington road	
	Storage of any kind should not be utilized in prime space.	Langston Brown	storage-opposed	
Quincy Park N	Short term : Buck property could be used for seldom-used services like sand/pipes etc. Quincy St is only 2 lanes and therefore cannot support daily bus parking (coming and going). Traffic would be too much.	W-L	Traffic congestion	Buck
glencarlyn	Traffic and safety are a tremendous concern on Carlin springs	W-L	traffic congestion	Carlin Springs
glen carlyn	Locate uses with truck traffic near access to highways.	Kenmore	Traffic congestion/safety	
Virginia square	Buck: traffic -exit onto Quincy is difficult to get out of especially when traffic backs up due to light on wash Blvd.	W-L	traffic/safety	Buck

glen carlyn	No facility should be by the that would increase vehicle traffic on Carlin Springs Road. This would include facilities on land already owned by eh county or APS (such as an additional school or expanded school on the property currently occupied by Carlin Springs elementary and Kenmore middle schools.	Kenmore	traffic/safety	Carlin Springs
cherrydale	consider traffic impact for all of the uses discussed tonight, especially for safety of pedestrians and bicyclists	Kenmore	traffic/safety	
forest glen	Any use at carline springs, if it is acquired, should NOT be industrial and should not increase rush hour traffic on Carlin Springs Road.	Kenmore	traffic/safety	
glen carlyn	traffic on carline springs is horrible now-it will only get worse if that site is developed	Central Library	traffic/safety	
	Charge for parking. Make walking and biking easier.	Langston Brown	transportation infrastructure	
Aurora Highlands	Sites should be scanned and scored for their ability to take advantage of transportation infrastructure -- particularly for non-auto transportation (i.e. which sites have the potential to have the least impact in traffic) and require less parking (ability to use funds for facility construction and not parking)	Arl Mill	transportation infrastructure	
	Include transportation planning that elevates shirlington road, four milr run drive and the ramps of 395. this creates at grade access from Jennie Dean Park to XXX...	Key	transportation infrastructure	
	I would like to see an improved process for developing and updating GLUP and civic association plans. Some cash could use help in conducting surveys and developing their plans.	Central Library	zoning	GLUP
	Some areas/properties need to be rezoned to accommodate the many needs of Arlington County.	W-L	zoning	
	Get defined requirements-question zoning.	Key	zoning	
glen carlyn	Preserving industrial land is important in small county. Locate industrial uses in current industrial zoning.	Kenmore	zoning	
Bluemont	County should be faithful to zoning ordinance – don't provide bonus density – better to negotiate for public benefit.	W-L	zoning	
Bellevue forest	learning that the buck property is not suitable for high density buildings was surprising	Central Library	zoning	
Ballston Virginia square	consider what the historical community message has been on a given site. (i.e., saying a side is residential for 30 years -more weight than a site that has recently been re-designated	Kenmore	zoning
