# Census 2020

## EVERYONE COUNTS

The census counts every person living in the U.S. once, only once, and in the right place.

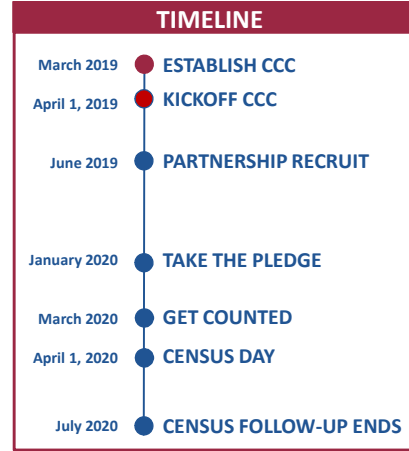

## FAIR REPRESENTATION

Every 10 years, the results of the census are used to apportion the House of Representative, determining how many seats each state gets.

## \$675 BILLION

Census data determine how more than \$675 billion are spent, supporting our state, county and community's vital programs.
